**Tourism, Planning and Building Control**

**General**

Guidance requires this policy statement to identify any arrangements between Visit Scotland and the Board, regarding reports on the needs of the local tourist economy. Detailed information will be provided here in the future. The Board is currently researching tourism requirements within the Board area. This Supplementary Policy Statement will be revised once research has been completed.

Guidance also indicates that planning, building control and licensing regimes will be properly managed to avoid duplication and inefficiency. This has been covered in The Board's Supplementary Policy Statement on Relationships with other Regulatory Regimes.
