

Ellon Community Council

Natasha Haggart

I am Natasha Haggart and I believe that I am suitable for a role in the Community Council. If I was to be elected to the post I would make sure that all our voices were heard.

I believe that Ellon needs more opportunities for younger people of our age, and what better way to do this than to elect someone who can speak up for all of us?

I would always be available to listen to other people's ideas and get an insight on what they believe is most important in making Ellon into an overall better community. Small improvements DO make a difference and this could finally be the opportunity for our generation to have a say.

We all deserve to have our say and now is our time to make our voices heard! Every vote counts!
