ECOLOGY, NATURE CONSERVATION AND BIODIVERSITY

Para	Topic	Page No.	Agreed with SNH	SNH Comments
Environmental Statement – March 2007				
Chapter 7 – Ecology, Nature Conservation and Biodiversity				
7.3	Baseline Conditions	80		
7.3.1	General Ecological Site Description	80		
	Statutory Designated Sites	80		
	1. European Designations	80		
	2. UK Designations	80		
	Non-statutory designated sites	80		
7.3.2	Habitats	80		
	Outline of Site Habitats	81		
	Strandline and Outer Fore-dune Face	81		
	Mobile Dune	81		
	Dune Slack	82		
	Fixed Dune Grassland	82		
	Dune Heath	82		
	Swamp, Standing Water and Running Water	83		
	Wet Grassland and Flushes	83		
7.3.3	Nature Conservation and Biodiversity	83		
	Species	84		
7.3.4	Birds	84		
	Breeding Birds	84		
	Winter and Passage Bird Surveys	86		
7.3.5	Mammals	86		
	European Protected Species	86		
	Otter	86		
	Species Summary	86		
	Otters and the Law	86		
	Otter data	87		
	Desk-top Review	87		
	Field Survey	88		
	a) Methodology	88		
	b) Field survey results	88		
	Bats	90		
7.3.6	UK Protected Species	91		
	Water Vole	91		
	Badger	92		
	Statutory and Non-statutory Obligations relating to Badger	92		
7.3.7	Amphibians and Reptiles	95		
	General description of the survey area	95		
7.3.8	Invertebrates	98		
7.3.9	Flora	99		
7.3.10	Evaluation of Recorded Interest	99		
	Biodiversity Summary	99		
	Known Nature Conservation Interest Summary	100		

Environmental Statement Appendices – March 2007				
Appendix 7 – Ecology, Nature Conservation and Biodiversity				
7.1	Habitat Data – Boreas Ecology			
7.2	Species Data			
	Desk-top data for statutory designated sites			
	A. Sands of Forvie SAC			
	B. Ythan Estuary, Sands of Forvie and Meikle Loch SPA			
	C. Foveran Links SSSI			
7.3	Menie Protected Species Report 2006, excluding Badger			
	Introduction			
	Aim			
	Scope and Structure of Report			
	General Site Description			
1	Great Crested Newt			
2	Otter			
3	Bats			
4	Water Vole			
App. 1	Current Site Masterplan			
App. 2	Main dune habitats in the Menie area			
App. 3	Distribution of ponds/ water features			
App. 4	Otter signs map			
App. 5	Copy of SEERAD licence advice note			
7.4	Menie Breeding Bird Surveys, May-July 2006			
1	Background			
2	Terms of Reference and Scope of Report			
3	Bird Survey Methodology			
4	Baseline Conditions for Breeding Birds			
5	Evaluation of Ornithological Resource			
6	Impacts on Breeding Birds			
7	Mitigation of Impacts			
8	Residual Impact Summary			
App. 1	Current Site Masterplan			
App. 2	Habitat Map			
App. 3	Breeding assessment criteria			
App. 4	Summary Status of all Recorded Bird Species			
Ann. A	Field Maps for Red List Breeding Birds			
Ann. B	NEBreaSC data			
Ann. C	NE Scotland Breeding Bird Atlas raw data 2002-2006			
7.5	Entomology Brief			
	Orders to be surveyed			
	Methods of Survey			
	1. Lepidoptera			
	2. Aquatic Coleoptera and Hemiptera			
	3. Orthoptera			
	4. Terrestrial Coleoptera and Hemiptera			
7.6	Menie Lichen Survey			
1	Introduction			

1.1	Background			
1.2	Previous Surveys			
1.3	Objectives			
2	Methodology			
2.1	The field survey method			
2.2	Timings and duration			
2.3	Survey constraints			
2.4	Nomenclature			
3	Results			
3.1	The lichen species recorded			
3.2	Terricolous lichen communities			
3.3	Epiphytic lichen communities			
3.4	Lichen species of interest			
3.5	Comparison with other dune systems in eastern Scotland			
3.6	The sub-sites and survey areas			
4	Recommendations			
App. 1	Species list			
App. 2	Species lists for each of the survey areas			
App. 3	Abbreviations used in the report			
7.7	Fungal Survey of Menie Sand Dunes			
	Introduction			
	Background			
	Methodology			
	Existing records			
	Results			
	Yellow Dunes			
	Grey Dunes			
	Dune slack			
	Dry dune heath			
	Fixed acidic dunes			
	Overview			
	Discussion			
	Recommendations			
App. 1	Menie Estate Golf Course – Site Plan			
App. 2	Dune Habitats Foveran to Balmedie			
App. 3	Menie Dunes Fungal Survey 2006: Species List			
7.8	Bat Survey of Menie			
	Introduction and Scope of the Survey			
	Background			
	Methodology			
	Results			
	Risk Assessment			
	Conclusions			
Ann. 1	Diagrammatic representation of bat survey sections			
Ann. 2	Foraging bat survey conditions			
Ann. 3	Foraging bat survey results			
Ann. 4	Legal protection of bats and their roosts			

Environmental Statement Appendices – April 2007			
Additional Appendix Information			
	Confidential Badger Report		

Response to Aberdeenshire Council and Statutory Consultations – July 2007			
Chapter 6 – Ecology			
6.1	Badger, Bat, Otter and Water Vole Survey Work	21	
6.2	Impact on SINS	23	
6.2.1	Botanical Context	23	
6.2.2	SWT assertions on Sand Martin	27	
6.3	Mitigation Measures	27	
6.4	Bird Disturbance	28	
6.5	Ecological Impact of Individual Holes	29	
6.6	Construction Impacts	32	
6.7	Operation and Maintenance Impacts	32	
6.8	Impact of Open Championship – Ecological	33	
6.9	Further Survey Work	35	
6.10	Species Classification	35	
6.11	Woodland Removal	36	
6.12	Entomological Surveys	36	
6.13	Accuracy of Botanical Information	37	
Appendices			
4	Agromony Report – Sports Turf Research Institute		
5	Badger Survey, June 2007		
6	Bat Survey, June 2007		
7	Otter Survey and Water Vole Survey, June 2007		
8	Entomology Survey (Aquatic Macroinvertebrates), July 2007		

Additional Environmental Information			
Reports			
	Fungi Report – Part 2		
	Terrestrial Invertebrates Report – Alba Ecology, September 2007		
	Appropriate Assessment Report incorporating Menie Winter and Passage Bird Surveys 2006-2007, October 2007		The subject of separate consultation with SNH.
	Appropriate Assessment Report incorporating Pink-footed geese and Recreational Disturbance issues, April 2008		The subject of separate consultation with SNH.

GEOLOGY, GEOMORPHOLOGY AND SOILS

Para	Topic	Page No.	Agreed with RSPB	RSPB Comments
Environmental Statement – March 2007				
Chapter 6 – Geology, Geomorphology and Soils				
6.3	Baseline Conditions	46		
6.3.1	Topography	46		
6.3.2	Geology	46		
	Solid Geology	46		
	Drift Geology	46		
6.3.3	Geomorphology	47		
	Inland Areas	47		
	Post-glacial Raised Shoreline	47		
	Sand Dunes	48		
	Mean Sea Level	49		
6.3.4	Influence of Wind Patterns on Geomorphology	49		
6.3.5	Soils	51		
6.3.6	Contamination	51		
6.3.7	Groundwater	51		
6.3.8	Designations	52		
	Foveran Links SSSI	52		
	Foveran Links SINS	52		

Environmental Statement Appendices – March 2007				
Appendix 6 – Geomorphology				
6.1	The Geomorphology of Menie Dunes, Links and Beach Areas			
6.1: 1	Terms of Reference			
6.1: 2	Executive Summary			
6.1: 3	Objectives			
6.1: 4	Conceptual Basis of Assessment			
6.1: 5	Analytical Framework			
	Boundaries			
	Landforms			
	Processes			
6.1: 6	Physical Site Boundaries			
6.1: 7	The Beach			
6.1: 8	The Coastal Dune			
6.1: 9	Inner Dunes, Ridges and Other Features			
6.1: 10	Drainage and Water Bodies			
6.1: 11	Processes			
	Wind History and Sand Transport			
6.1: 12	Significance of the Geomorphology (Form and Process) to the Proposed Development			
6.1: 13	Anticipated Key Issues for Planning Consent			

App. 1	Tabulation of specific golf course holes compared with geomorphological characteristics			
App. 2	Extract from 1976 Beaches of Northeast Scotland Report			
App. 3	Letter from SNH			
App. 4	Abstracts from Scoping Report			
App. 5	Menie Links Archeaology			
App. 6	Tabulation of Wind Data			
6.2	Geomorphological Map			
6.3	Menie Sand Dome Dynamics			
	Introduction			
	Available Aerial Photography			
	Methods			
	a) The 1946 aerial photographs			
	b) The 1949 aerial photographs			
	c) The 1954 aerial photographs			
	d) The 1963 aerial photographs			
	e) The 1973 aerial photographs			
	f) The 1988 aerial photographs			
	g) The 2006 aerial photographs			
	Changes in the Sand Dome Area			
	Summary			
	Recommendations for the future			
6.4	Menie Wind Data Supplement			
6.5	Mitigation and Technical Measures for Dune Management			
	Modification of Wind Flow and Sand Transport			
	Revegetation			
	Long Dune Grasses			
	'Short Grass' and Other Areas of Dune Vegetation			
	Topographic Reshaping			
	Specific Golf Course Requirements			
6.7	Balmedie Extension			
	Location			
6.7: 1	Beach and Coastal Dunes			
6.7: 2	Inner Dunes, Sandhills and Ridges			
6.7: 3	The Balmedie Sand Dome			
6.7: 4	Inland Transitional Links Area			
	Links			
6.7: 5	Marsh Terraces			
6.7: 6	Environmental Impact			
App. 1	Annotated digital photographs – January 2007			
6.8	Balmedie Extension (Revised)			
6.8: 1	Introduction and Presentation			
6.8: 2	Geomorphological Processes			
6.8: 3	Deflation and Other Landforms			
6.8: 4	Environmental Impact			
App. 1	Photographs of south part of Balmedie extension area – March 2007			

Response to Aberdeenshire Council and Statutory Consultations – July 2007			
Chapter 5 – Geomorphology			
5.1	Stabilisation of Sand Dome	13	
5.2	Management Philosophy	15	
5.3	Sediment Transport	16	
5.4	Geomorphological Mitigation	17	
5.5	Intertidal and Subtidal Environments	18	
5.6	Future Alteration Plans	18	
5.7	Coastal Management	19	
5.8	Use of Menie Golf Course for a Major Event	20
