The circa 7.5 acre area included in the Proposal lies at the south-eastern edge of the Birkenhills settlement and is outlined in red on the supporting plans. The wider area

A1

Please provide a statement on the siting and design of your proposal (how will the development fit in with the wider landscape, or complement the urban design of the area?) The proposed development would extend the Birkenhills settlement boundary to the south-east. The proposal is: (a) a suitable expansion of the village in terms of the additional numbers of houses it would add to the settlement (adding 5 to the approximate present settlement number of houses of 15); (b) be a suitable place for the expansion of the village in terms of road safety, in that site access will be off a minor road (of suitable width) between Birkenhills and Greens and not be taken directly off the A947; (c) will include a 3.75 acre amenity planting on the north side, which will be opened up for public access and; (d) for a development of 5 detached houses, well set back from the public road on large landscaped plots, which will not create a ribbon development effect.

If you have a landscape statement, a design statement or other details about what you would like to see on the site, please include it. *Statement attached*

A2

If you have prepared any frameworks or masterplans showing a possible layout for the site, please include it with this form. *Framework attached*
