The wider area

A1 Please provide a statement on the siting and design of your proposal (how will the development fit in with the wider landscape, or complement the urban design of the area?) Both portions of the land lie within what would generally be understood to be the existing settlement and are simply 'unused'. The eastern one lies beside the tidal estuary of the River Ythan with existing housing adjacent on its south side and the Quay development, still building, on its north side. The western portion on the opposite side of Main Street lies beside the gardens of Culterty Field Station (no longer actively used). Development of both portions would be entirely appropriate to the village.

If you have a landscape statement, a design statement or other details about what you would like to see on the site, please include it. *Statement attached*

A2 If you have prepared any frameworks or masterplans showing a possible layout for the site, please include it with this form. *Framework attached*

A3 Have you applied principles of sustainable siting and design to your site? Yes

 ARCH

- C6 What are the access arrangements you propose for the site. Does your site plan clearly show where you propose to access the road network? Yes No

Other information

- O1 What other information would you like to be considered in support of your proposal? In order to comply with the Data Protection Act 1998 please do not include any personal information

The western portion of the site lies to the south of the gardens and large pond associated with the now closed Cultery Field Station. It is understood that the Protected Area designation shown in the Aberdeenshire Local Plan 2006 is principally intended to protect the Field Station's attractive gardens. It seems unnecessary and unreasonable that the designation should be applied to this portion of private domestic ground and at the very least it is requested that the designation should be lifted in so far as it relates to Mr & Mrs Stanbury's Land.
