Layout and design is to reflect the variable mix of the existing housing stock in Collieston, the traditional cottage of the Low Town and the larger houses of the High Town in terms of scale, finish and use of the sloping sites, integrating the intricate interactive patchwork of existing housing with the use of "home zone" clusters in the development.

Effect on the community

No
Not Yet

If you have undertaken any community consultation please provide details of the ways in which engagement was conducted, its effectiveness and the way in which it has influenced your proposals. Please provide details of any engagement you may propose to undertake.

C2 At least 25% of all housing is likely to be required to be affordable. If applicable, are you considering providing more or less than this? More
25% or Less

C3 What community benefits arise from your proposals? What would the nature of these be, and how would they be delivered?

It is intended that the provision of affordable housing may help people to continue to live in the area, whilst the additional housing may contribute to the viability of the local Slains Primary School, where, we understand extensions are currently being considered. Additional housing and the developer contributions may help with the current plans to develop the new replacement hall and then continue to help with the viability of such a project.

Community benefits may be material, such as community facilities, or intangible, such as affordable housing or the ability to live locally. Include elements which you anticipate may be required as developer contributions from the development (although specifics will have to be negotiated with the Council on the basis of the development proposed)

C4 How easy is it for people using or living in the development you propose to access services? Are the following facilities within:

Rather than full studies it may be appropriate to undertake initial assessments to identify the scale of any works that might be required, as this will impact on the deliverability of the proposal. This assessment may be no more than an exchange of letters with appropriate agencies. Information on water and sewage capacity is available online at :
