S2 Have you provided a map showing the exact boundaries of the site you would like considered?

S3 Yes No

Please provide the National Grid reference of the site

NJ 776 186

S4 What is the current use of the site? Agricultural land - 1.8 hectares.

Has the land been built upon before (Brownfield Land)? Yes No

If yes Please provide a statement of the nature and extent of the contamination suspected
Statement attached

S5 What use(s) do you propose for your site? Development of employment land - most likely Class 4 Business - as an extension to the existing adjacent site to the south-east - with the north-westernmost portion planted as an area of woodland to maintain the setting of Thainstone House.

If you are proposing a mix of uses on your site please ensure that the area of each is noted on the site plan

S6 Are you proposing to phase your development? Yes No

The high level of demand for the earlier parts of the development adjacent suggests that, combined with its small scale, the extended area is likely to be developed very quickly.

S7 If you are proposing housing on the site please provide us with details of what you think would be appropriate, both in terms of the number of dwellings, and their form (Flats, detached houses etc).

If you have a design statement or other details about what you would like to see on the site, please include it.

If you are proposing business land please provide us with details of what you would market the land for?

Businesses and offices (Use class 4)

General industrial land (Use Class 5)

The development will appear as a modest expansion of the adjacent business uses. The woodland planting will help fit the development in the surrounding landscape as well as respecting the setting of Thainstone House.

If you have a landscape statement, a design statement or other details about what you would like to see on the site, please include it. *Statement attached*

A2

If you have prepared any frameworks or masterplans showing a possible layout for the site, please include it with this form. *Framework attached*
