25% or Less

C3 What community benefits arise from your proposals? What would the nature of these be, and how would they be delivered?

Affordable Housing - we shall be providing an on site provision of at least 25%. This will provide much needed housing for local people. The tenure mix will be discussed with the Council and Housing Associations to ensure that local needs are met.

Subject to requirements from the Council, we would propose to incorporate the provision of community facilities/open space on site. Alternatively we would make an offsite financial contribution towards the facilities that would benefit the wider community in addition to the proposed residents, such as education provision or community facilities. This would be clarified following discussions with the Council.

Community benefits may be material, such as community facilities, or intangible, such as affordable housing or the ability to live locally. Include elements which you anticipate may be required as developer contributions from the development (although specifics will have to be negotiated with the Council on the basis of the development proposed)

C4 How easy is it for people using or living in the development you propose to access services? Are the following facilities within:

C6 What are the access arrangements you propose for the site. Does your site plan clearly show where you propose to access the road network? Yes  No

### Other information

O1 What other information would you like to be considered in support of your proposal? In order to comply with the Data Protection Act 1998 please do not include any personal information

Although the site currently sits outwith the settlement boundary of Westhill it has been identified within the Draft Westhill Capacity Study, which is expected to inform the next Aberdeenshire Local Plan, as being able to accommodate development. Following the recent road improvements the site now affords excellent access links into Westhill and Aberdeen, with direct access off the newly constructed roundabout on the B9119.

There continues to be a very high demand for housing in Westhill which was identified as one of the main issues affecting the settlement in the current Aberdeenshire Local Plan.

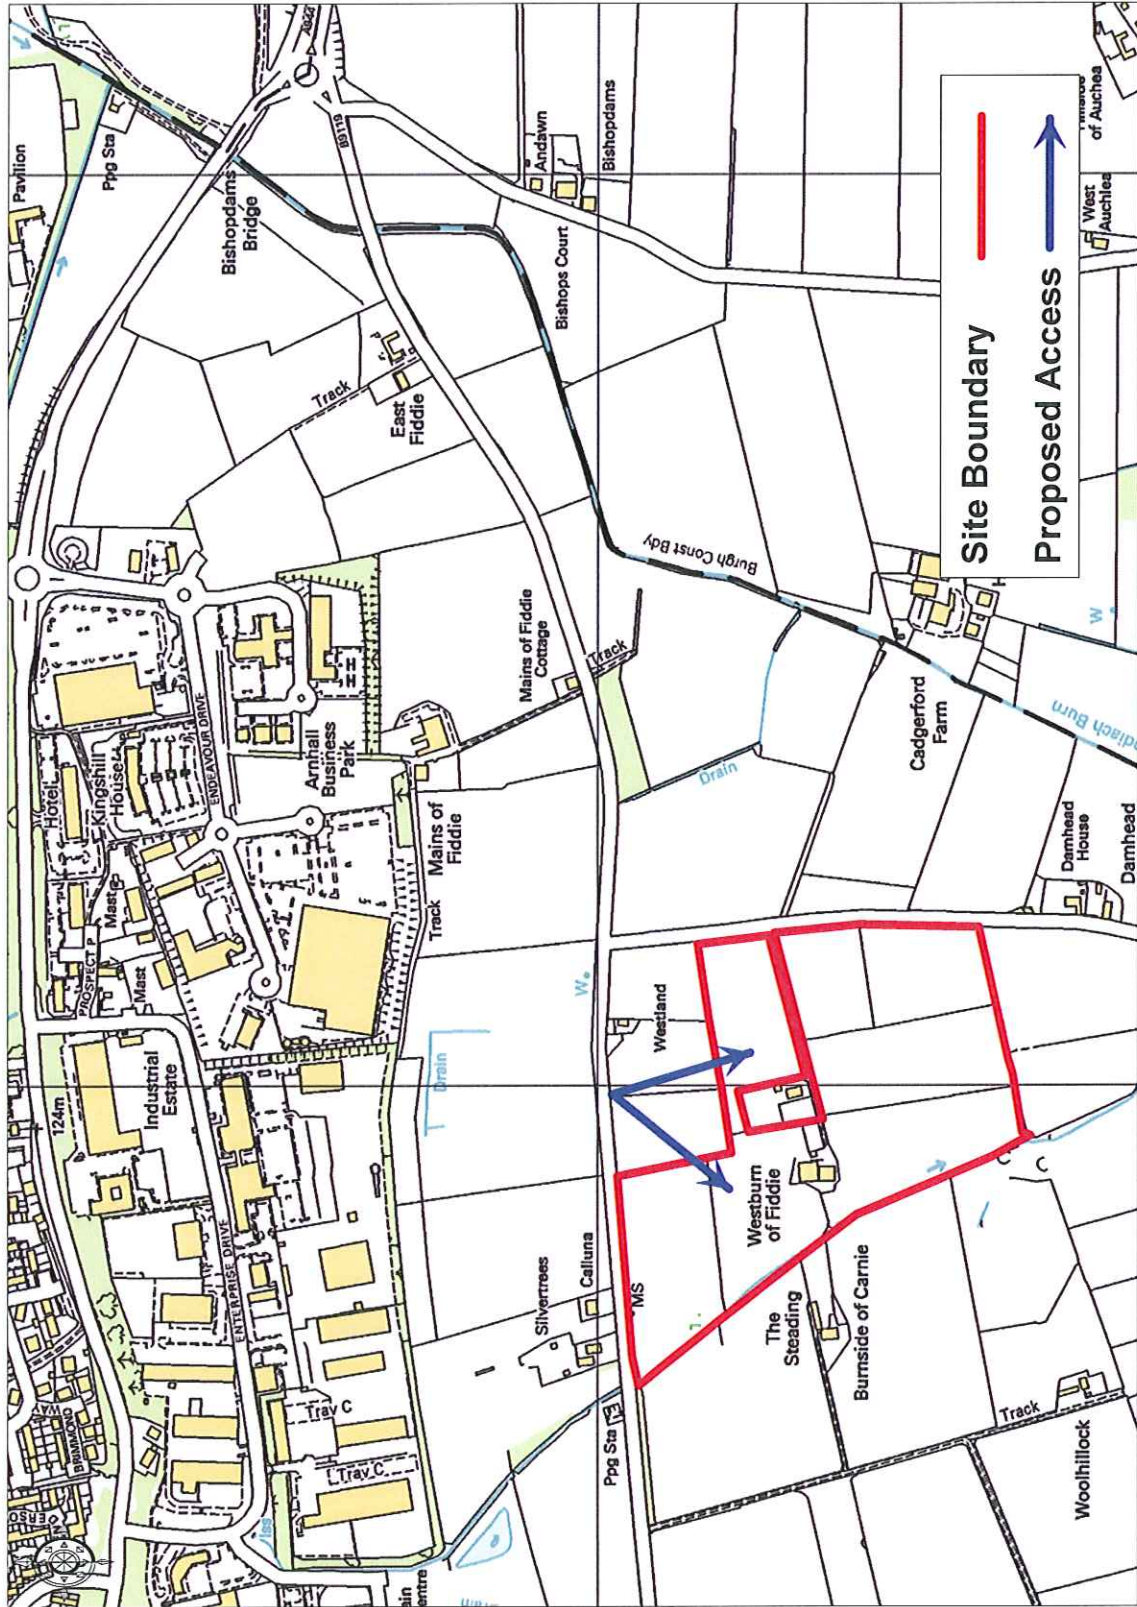

The site can contribute towards fulfilling the requirement within the Draft Aberdeen City & Shire Structure Plan for the Aberdeen Housing Market Area of 1700 units within the Plan period.
