No

If you have undertaken a site assessment please provide details

Statement attached

The Code for Sustainable homes or WWW.index21.org.uk provides guidance on this issue

Effect on the community

C1

Has there been any opportunity for local people to influence what you propose through local engagement?

Yes

No

Not Yet

If you have undertaken any community consultation please provide details of the ways in which engagement was conducted, its effectiveness and the way in which it has influenced your proposals. Please provide details of any engagement you may propose to undertake.

C2 At least 25% of all housing is likely to be required to be affordable. If applicable, are you considering providing more or less than this? More
25% or Less

C3 What community benefits arise from your proposals? What would the nature of these be, and how would they be delivered?

The community would benefit from the provision of affordable housing in excess of the minimum requirement.

Community benefits may be material, such as community facilities, or intangible, such as affordable housing or the ability to live locally. Include elements which you anticipate may be required as developer contributions from the development (although specifics will have to be negotiated with the Council on the basis of the development proposed)

C4 How easy is it for people using or living in the development you propose to access services? Are the following facilities within:

	400m	400m-1k	>1km
Local Shops	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Community facilities (eg Hall)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sports facilities (eg playing fields)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Land at Bogside, Old Rayne

Site Assessment for Sustainable Siting and Design

- A3 The sustainability of this site is enhanced by the minimal infrastructure provision needed to service it. 5No houses can be served by a private road, foul sewer and water provisions are all on Lawrence Road ready to be extended to the site..

The housing units have sites large enough to accommodate geo thermal heating .

The proposed houses would be of contemporary design with the larger areas of glass oriented to take advantage of solar gain. They would also endeavour to maximise on the use of sustainable technologies and would have high levels of thermal insulation to minimise energy consumption.
