### The wider area

A1

Please provide a statement on the siting and design of your proposal (how will the development fit in with the wider landscape, or complement the urban design of the area?)  
The existing housing is a mixture of converted steadings, farmhouse and modern bungalow. It would be our client's intention to erect two new storey and a half detached houses exhibiting traditional rural character and proportion and using traditional finishes.

The development is largely screened from the A90 by the existing farm steading and house and a plantation of mature trees. There is a tree belt immediately to the north east of the development which affords further screening

Perimeter planting and soft landscaping would be incorporated to further screen the development.

If you have a landscape statement, a design statement or other details about what you would like to see on the site, please include it. *Statement attached*

A2 If you have prepared any frameworks or masterplans showing a possible layout for the site, please include it with this form. *Framework attached*

If you have undertaken a site assessment please provide details

*Statement attached*

It would offer employment during the construction of the project and in maintaining services in the future.

Rural accommodation is at a premium and this development would allow the provision of two units within the established settlement of the Haddo thereby fulfilling a public need while remaining within Council Policies.
