S9

If you are proposing uses other than housing or business please provide us with as much detail as possible on what you propose. The small bit [about 2 acres - grid ref NO 862 843] is east of the A94 and

south of the A92 with the slip road from the A92 to the A94 on the east side. There are 2 houses on the south side of the wood bordering an old road which now has the A94 built on top of it. There is a strip of larch bordering the slip road and access can be taken from it and perhaps 3 or 4 houses might be built in the rest of the area which is the remains of a windblown woodland. I assume that retaining the larch area might be an asset.

The larger bit [about 10 acres - grid ref NO 859 844] is west of the A94, south of the A92 with the other 2 boundaries being minor roads. It would, be possible to build 3 or 4 large houses within the woodland whilst retaining it as a mainly wooded area. An alternative would be if the area to west was developed for housing then this woodland could become an amenity area with proper paths and a path from it under the A94 so that people had a more attractive route to walk and cycle into Stonehaven. I am aware that as an amenity area it would not be as valuable as building land but it would be an asset to an adjoining development and therefore worth more than it is as just woodland.

Please continue on additional sheets as required.
