In the Finalised Aberdeenshire Local Plan part of the site was previously identified as "Site A" for around 5 houses. The remainder of the site was identified as "Site fh1(5)" for future housing land. The site occupies an inconspicuous location on relatively low lying land contained on two of its three sides by existing housing. Housing development on this site would round off the north boundary of Findon. The house types/designs would complement the urban design of adjoining housing developments. The provision of additional peripheral landscaping would enhance the approach into Findon from the north.

### Other information

- O1 What other information would you like to be considered in support of your proposal? In order to comply with the Data Protection Act 1998 please do not include any personal information
- The Survival Craft Inspectorate based in Findon employs around 60 members of staff. A housing development on this site would provide much needed opportunities for local employees to live locally and walk to work and would therefore be a sustainable form of development. It would also provide opportunities for local residents to stay in Findon.
- The allocation of this site for housing would reflect the Council's previous support for housing development on this land as indicated in the former Finalised Aberdeenshire Local Plan where part of the site was previously identified as Site A for around 5 houses and the remainder of the site was identified as Site fh1(5) for future housing land.
- Please see attached plan:
