Approximately 150 units. The wider area

The development of this site could provide a phased, proportionate, and well-designed enlargement of the existing settlement, providing enhanced market choice at the southern end of a Strategic Growth Area as identified in the emerging Structure Plan.

If you have a landscape statement, a design statement or other details about what you would like to see on the site, please include it. *Statement attached*

A2

If you have prepared any frameworks or masterplans showing a possible layout for the site, please include it with this form. *Framework attached*

No

C2

At least 25% of all housing is likely to be required to be affordable. If applicable, are you considering providing more or less than this? More 25% or Less

C3

What community benefits arise from your proposals? What would the nature of these be, and how would they be delivered?

The key benefit is local investment. Opportunities would be provided for people to move within Marykirk and the local area, and for newcomers to renew and enliven the local community. Affordable housing would be a key element in delivering these benefits. A higher figure of 30% can be achieved on this site by including an element of 'Affordable by Design' plots within the overall development. Muir Homes would welcome discussions on this.

Community benefits may be material, such as community facilities, or intangible, such as affordable housing or the ability to live locally. Include elements which you anticipate may be required as developer contributions from the development (although specifics will have to be negotiated with the Council on the basis of the development proposed)
