- C6 What are the access arrangements you propose for the site. Does your site plan clearly show where you propose to access the road network? Yes No

Other information

- O1 What other information would you like to be considered in support of your proposal? In order to comply with the Data Protection Act 1998 please do not include any personal information

It is proposed that at least 25 per cent of the overall development should be affordable housing.

Areas A and B are naturally screened by topography, trees, drystone dykes, and other natural land forms. It is proposed that houses in this area would combine eco-friendly/sustainable features with traditional design in keeping with the buildings at the farm. There is enough acreage in area B to allow the occupants to have garden/allotment ground beside their homes.

All services are on hand.

Area C: the farm buildings, constructed with local stone/granite and slate roofs, are now redundant for modern farming. The sympathetic development of these buildings would give a pleasing result and enhance the surroundings

Historically the site at Whitehill has been an amalgamation of farm activity and cottown/croft settlement as was the custom in this part of Aberdeenshire, the occupants of the farms at that time being tenants of the Gordon Estates. A copy of part of the Gordon Estate map (dated 1779) is attached which shows a cluster of houses/buildings in the vicinity of the farm. Other neighbouring farms were also of this nature.
