

Objection to Chapter No 8
Logie Coldstone Settlement,
Marr Area
By
Mr & Mrs C Smith

Accompanying Statement
Reason for Objection

A shrinking community, Logie Coldstone has in recent years seen the closure of the Post Office and Shop. Available land for new homes is limited. There is a definite need for Family Housing to help secure the future of the school which was threatened with closure in recent years

The local plan identifies 3 sites for future housing, Site fh1 which is suitable for 2 House sites and fh2 which is suitable for 3. A which is suitable for 2 As stated in the introduction of the Local Plan, it's purpose is to provide a detailed guidance for new development in Aberdeenshire up to the end of 2015, recognizing the need to provide sufficient land (a minimum five year effective land supply) for future house building.

At present Logie Colstone is restricted to 7 possible new Houses over this period, we request for the extension of the village settlement area to the west of Logie Coldstone (as identified in the attached map) as a realistic opportunity for future housing.

Location.

Within Village Boundaries as marked by Road Signs
Sited between existing Houses, Agricultural Building and Village Hall

The site is located opposite Logie Coldstone Village Hall, and bounded to the South by the Logie Burn, To the North by the A97 road, to the west by the access road to adjoining houses and to the east by Logie Coldstone Play Park

The site is immediately adjacent to the Village Settlement as described in the existing local plan.

The site is located between existing established buildings. The Village Hall to the North, a number of Private Dwelling Houses and an agricultural building to the West.

It is well within the Village as identified by the roads signs located to the North West.

Consideration has been given to the area of land proposed in order to take into account the landform and surrounding buildings.

The Sites slope away from the A97 Road to the south and the Houses have been positioned to prevent any flooding from the burn . The area of land immediately adjacent to the burn has been maintained to retain the amenity of the area .

The site is used for rough grazing. Well-designed houses would not reduce the amenity of the area.

Road

Traffic Calming markings immediately adjacent to Access, Good Visibility,

The site lies with direct access onto the A97. Immediately to the west of the proposed entrance, the road has traffic calming markings.

An entrance can be designed to comply in all respects with Grampian Regional Council Department of Roads – Guidelines & Specification for Roads within Residential & Industrial Developments.

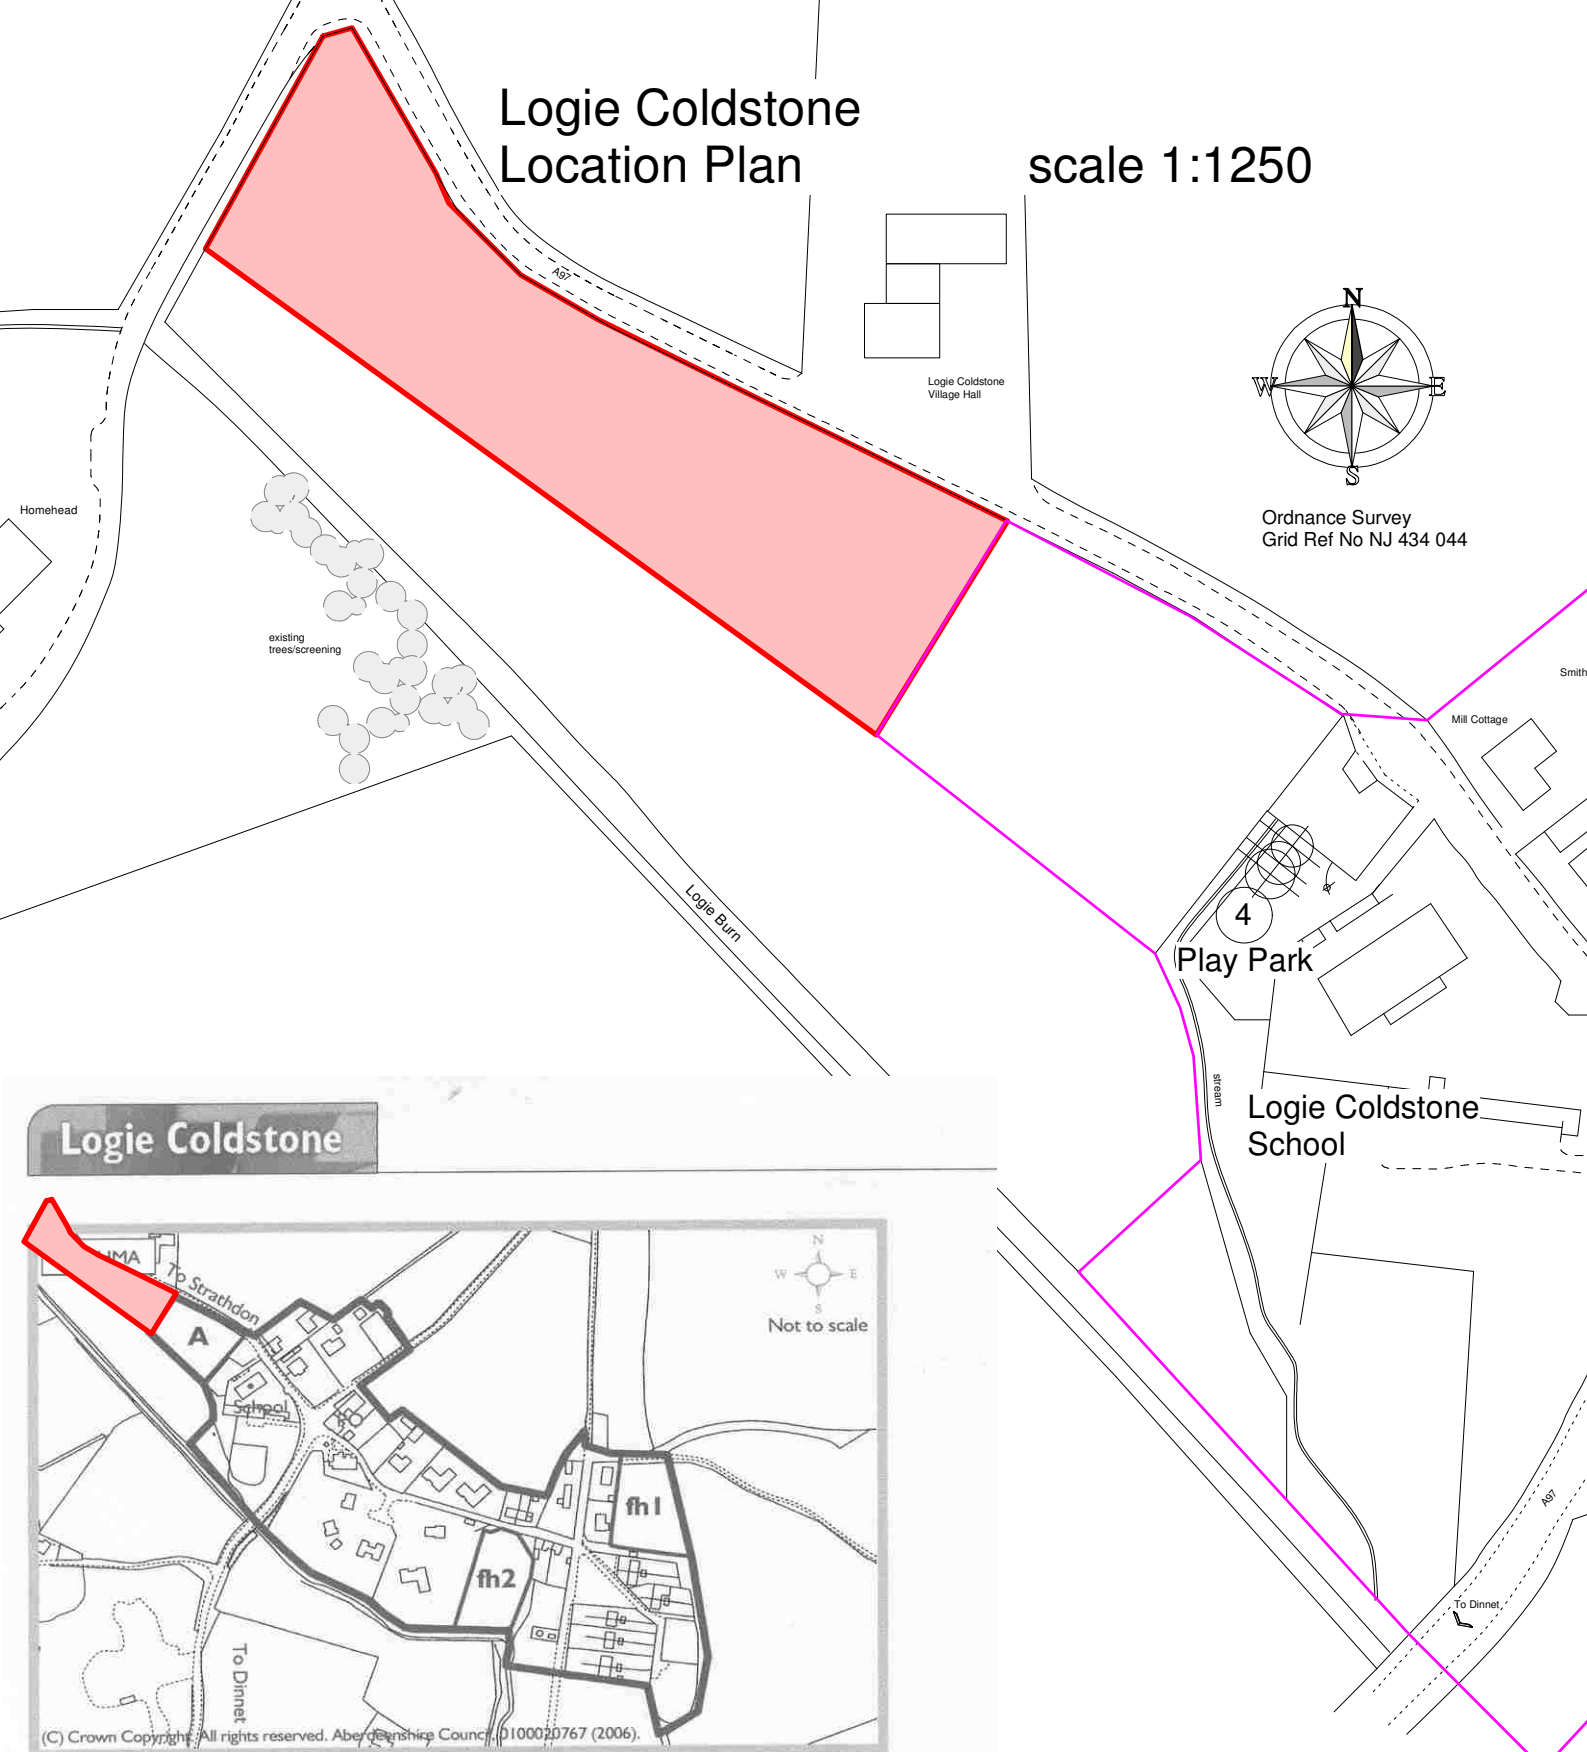

Services

Services are available on or adjacent to the site

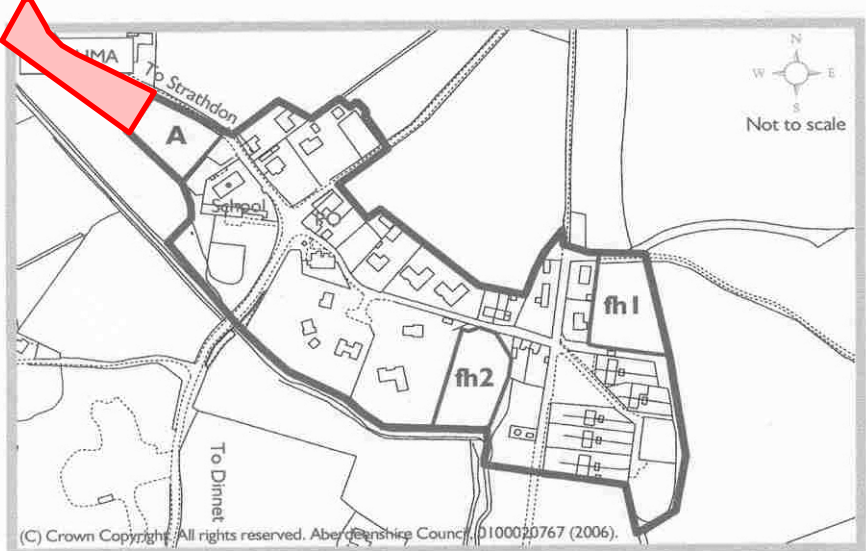

Percolation tests have been carried out and provision of suitable drainage from septic tanks has been confirmed.
