Whereas:

- (1) The reforms of the Common Agricultural Policy (CAP) agreed in 2003 and 2004 included provisions to gauge their effectiveness. In this context the Commission presented a Communication to the European Parliament and the Council entitled “Preparing for the ‘Health Check’ of the CAP reform” on 20 November 2007⁶. That Communication and the subsequent discussions of its main elements by the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions, as well as numerous contributions arising from public consultation should be taken into account.
- (2) Experience drawn from the implementation of Council Regulation (EC) No 1782/2003 of 29 September 2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes⁷ in particular shows that certain elements of the support mechanism need to be adjusted. In particular the decoupling of direct support should be extended and the functioning of the Single Payment Scheme should be simplified. Furthermore, Regulation (EC) No 1782/2003 has been substantially amended on several occasions. In the light of these developments and in the interest of clarity it should be repealed and replaced by this Regulation.

⁶ COM(2007) 722 final.

⁷ OJ L 270, 21.10.2003, p. 1.

- (3) Regulation (EC) No 1782/2003 established the principle that farmers who do not comply with certain requirements in the areas of public, animal and plant health, environment and animal welfare are subject to reductions of or exclusion from direct support. This “cross compliance” system forms an integral part of Community support under direct payments and should therefore be maintained. However, experience has shown that a number of the requirements within the scope of cross compliance are not sufficiently relevant to farming activity or farm land or concern national authorities rather than farmers. It is therefore appropriate to adjust the scope of cross compliance.
- (4) Furthermore, in order to avoid agricultural land being abandoned and ensure that it is maintained in good agricultural and environmental condition, Regulation (EC) No 1782/2003 established a Community framework within which Member States adopt standards taking account of the specific characteristics of the areas concerned, including soil and climatic conditions and existing farming systems, land use, crop rotation, farming practices and farm structures. This framework should be maintained. Experience has shown nevertheless that the relevance and beneficial effects of certain standards are not sufficient to justify their implementation by all Member States. Such standards should therefore become optional for Member States. However, to ensure that the framework is as consistent as possible, a standard should not be optional where before 2009 the Member State already defined a minimum requirement on the basis of such a standard or where national rules which address such a standard are in place.

- (5) The abolition of compulsory set aside within the single payment scheme (see Recital 30 below) may in certain cases have adverse effects on the environment, in particular as regards certain landscape features. It is therefore appropriate to reinforce the existing Community provisions aimed at protecting specified landscape features. In specific situations it should also be possible for a Member State to provide for the establishment and/or retention of habitats. This Regulation will only enter into force after 1 January 2009. Given the fact that farmers have to comply with the cross compliance obligations throughout the year, the new obligations should only apply from 2010 and in the case the standard on establishment of buffer strips along water courses by 31 January 2012.
- (6) Protection and management of water in the context of agricultural activity has increasingly become a problem in certain areas. The existing Community framework for good agricultural and environmental condition should therefore also be reinforced with the aim of protecting water against pollution and run-off and of managing the use of water.
- (7) In Regulation (EC) No 1782/2003, the positive environmental effect of permanent pasture was recognised. The measures in that Regulation to encourage the maintenance of existing permanent pasture to ensure against mass conversion to arable land should be maintained.
- (8) In order to achieve a better balance between policy tools designed to promote sustainable agriculture and those designed to promote rural development, a system of compulsory progressive reduction of direct payments (“modulation”) was introduced by Regulation (EC) No 1782/2003. This system should be maintained and should include the exemption of direct payments of up to EUR 5 000.

- (9) The savings made through modulation are used to finance measures under the rural development policy. Since Regulation (EC) No 1782/2003 was adopted, the agricultural sector has been faced with a number of new and demanding challenges such as climate change and the increasing importance of bio-energy, as well as the need for better water management and more effective protection of biodiversity. The European Community, as party to the Kyoto Protocol⁸, has been called to adapt its policies in the light of climate change considerations. Furthermore, following serious problems relating to water scarcity and droughts the Council, in its Conclusions on “Water Scarcity and Drought” of 30 October 2007, considered that water management issues in agriculture should be further addressed⁹. Furthermore, the Council has emphasised in its Conclusions on “Halting the Loss of Biodiversity” of 18 December 2006, that protecting biodiversity remains a major challenge and while important progress has been made, the attainment of the European Community’s biodiversity target for 2010 will require additional efforts¹⁰. Moreover, since innovation can in particular contribute to the development of new technologies, products and processes it should therefore underpin the efforts to tackle these new challenges. The expiry of the milk quota regime in 2015 under Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products¹¹ will require specific efforts on the part of dairy farmers to adapt to changing conditions, particularly in disadvantaged regions. It is therefore appropriate that this particular situation should also be defined as a new challenge which Member States should be able to address with a view to ensuring a “soft-landing” of their dairy sectors.

⁸ Council Decision 2002/358/EC concerning the approval, on behalf of the European Community, of the Kyoto Protocol to the United Nations Framework convention on Climate change and the joint fulfilment of commitments thereunder (OJ L 130, 15.5.2002, p. 1).

- (10) The Community acknowledges the need to tackle these new challenges in the framework of its policies. In the area of agriculture, rural development programmes adopted under Council Regulation (EC) No 1698/2005 of 20 September 2005 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)¹² are an appropriate tool for dealing with them. To enable Member States to revise their rural development programmes accordingly without being required to reduce their current rural development activities in other areas, additional funding needs to be made available. However, the financial perspective for the period 2007 to 2013 does not provide for the financial means to reinforce the Community's rural development policy as necessary. Under these circumstances a large part of the financial resources needed should be mobilised by providing for a gradual increase in the reduction of direct payments through modulation.
- (11) The distribution of direct income support among farmers is characterised by the allocation of a large quantity of payments to a rather small number of large beneficiaries. It is clear that larger beneficiaries do not require the same level of unitary support for the objective of income support to be efficiently attained. Moreover, the potential to adapt makes it easier for larger beneficiaries to operate with lower levels of unitary support. It is therefore fair to expect farmers with large amounts of support to make a special contribution to the financing of rural development measures addressing new challenges. Therefore, it is appropriate to establish a mechanism providing for an increased reduction in the larger payments, the proceeds of which should be used to address the new challenges in the framework of rural development.
- (12) The particular geographical situation of the outermost regions as well as their insularity, small area and mountainous terrain and climate impose additional burdens on their agricultural sectors. In order to mitigate such burdens and constraints there should be a derogation from the obligation to apply the modulation reduction to farmers in the outermost regions.

¹² OJ L 277, 21.10.2005, p. 1.

- (13) The increased rates of compulsory modulation need to be taken into account by those Member States that opted to apply a system of voluntary modulation. Council Regulation (EC) No 378/2007 of 27 March 2007 laying down rules for voluntary modulation of direct payments provided for in Regulation (EC) No 1782/2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers¹³ should be amended accordingly.
- (14) The amounts resulting from the application of 5 percentage points corresponding to the modulation reductions determined in Regulation (EC) No 1782/2003 should be allocated amongst Member States according to the same criteria established under that regulation, i.e., in accordance with objective criteria while establishing that a certain percentage of the amounts should remain in the Member States where they were generated. In view of the structural adjustments resulting from the abolition of rye intervention, the specific measures for certain rye production regions to be financed with part of the amounts generated by modulation should be maintained. Moreover, the amounts raised by applying any further modulation reduction should be made available to the Member States in which they were generated.
- (15) In order to facilitate the functioning of modulation, notably with regard to the procedures for granting direct payments to farmers, and the transfers to the rural development programmes, net ceilings should be determined for each Member State to limit the payments to be made to farmers following the application of modulation. To take into account the specificities of CAP support in the outermost regions and the fact that direct payments are not subject to modulation, the net ceiling for the Member States concerned should not include the direct payments in these regions. Council Regulation (EC) No 1290/2005 of 21 June 2005 on the financing of the common agricultural policy¹⁴ should therefore be amended accordingly.

¹³ O.J L 95, 5.4.2007, p. 1.

¹⁴ OJ L 209, 11.8.2005, p. 1.

- (16) Farmers in the new Member States receive direct payments following a phasing-in mechanism provided for in their respective Acts of Accession. In order to achieve a proper balance between policy tools designed to promote sustainable agriculture and those designed to promote rural development, the system of modulation should not be applied to farmers in the new Member States until the level of direct payments applicable in those Member States is equal to the level applicable in the other Member States.
- (17) Modulation should not reduce the net amount paid to a farmer in a new Member State below the amount to be paid to an equivalent farmer in the other Member States. Once modulation becomes applicable to farmers in the new Member States, the rate of reduction should, therefore, be limited to the difference between the level under the phasing-in schedule and the level in the other Member States following the application of modulation. Moreover, modulation should be taken into account in the granting of complementary national direct payments to farmers in new Member States who are subject to modulation.
- (18) With a view to ensuring that the amounts for the financing of the CAP comply with the annual ceilings set in the financial perspective, the financial mechanism in Regulation (EC) No 1782/2003 whereby the level of direct support is adjusted when the forecasts indicate that the subceiling of heading 2, with a safety margin of EUR 300 million, is exceeded in a given financial year should be maintained. Taking into account the levels of direct payments for farmers in the new Member States as a result of phasing-in, and in the framework of the application of the phasing-in mechanism to all direct payments granted in the new Member States, this instrument of financial discipline should not apply in those Member States until the level of direct payments applicable in those Member States is at least equal to the level applicable in the other Member States. In view of the particular weight in the Communities' budget of the resource referred to in Article 2(1)(c) of Council Decision 2007/436 on the system of the European Communities' own resources, it is appropriate to provide, exceptionally, for the Council to adopt the necessary decision to apply the instrument of financial discipline on a proposal from the Commission.

- (19) In order to help farmers to meet the standards of modern, high-quality agriculture, it is necessary that Member States continue to operate the comprehensive system offering advice to farms provided for in Regulation (EC) No 1782/2003. The farm advisory system should help farmers to become more aware of material flows and on-farm processes relating to the environment, food safety, animal health and welfare without in any way affecting their obligation and responsibility to comply with those standards.
- (20) Member States have, in accordance with Regulation (EC) No 1290/2005, to take the measures necessary to satisfy themselves that transactions financed by the European Agricultural Guarantee Fund (EAGF) are actually carried out and are executed correctly, and prevent and deal with irregularities. To this end they should operate an integrated administration and control system for direct payments. In order to improve the effectiveness and control of Community support the Member States should be authorised to make use of the integrated system also in the case of Community schemes not covered by this Regulation.
- (21) The main elements of the integrated administration and control system and, in particular, the provisions concerning a computerised database, an identification system for agricultural parcels, aid applications from farmers, a harmonised control system and, in the single payment scheme, a system for the identification and recording of payment entitlements should be maintained.

- (22) Managing small amounts is a burdensome task for the competent authorities of the Member States. To avoid an excessive administrative burden, Member States should in general refrain from granting direct payments where the payment would be lower than EUR 100 or the eligible area of the holding for which support is claimed would be less than one hectare. However, as the structures of the Member States' agricultural economies vary considerably and may differ significantly from the average Community farm structure, special provision should be made to allow Member States to apply minimum thresholds that reflect their particular situation. Due to the very specific farming structure in the outermost regions and the Aegean Islands, these regions should not be subject to the application of any minimum threshold. Moreover, Member States should have discretion to opt for the implementation of one of the two types of minimum threshold taking account of the particularities of the structures of their farming sectors. As special payment entitlements were allocated to farmers with so-called "landless" holdings, the application of the hectare-based threshold would be ineffective. Such farmers should therefore be subject to the average support-related minimum amount. To ensure equal treatment of farmers whose direct payments are subject to phasing-in, the minimum threshold should be based on the final amounts to be granted at the end of the phasing-in process.
- (23) Experience of the application of the single payment scheme shows that decoupled income support was in a number of cases granted to beneficiaries whose agricultural activities formed only an insignificant part of their overall economic activities or whose business purpose was not or only marginally targeted at performing an agricultural activity. To prevent agricultural income support from being allocated to such beneficiaries and to ensure that Community support is entirely used to ensure a fair standard of living for the agricultural community, Member States should be empowered, where such allocation occurs, to refrain from granting such natural and legal persons direct payments under this Regulation.

- (24) Payments provided for under Community support schemes should be made by the competent national authorities to beneficiaries in full, subject to any reductions provided for in this Regulation, and within prescribed periods. In order to render the management of direct payments more flexible, Member States should be allowed to pay direct payments in up to two instalments per year.
- (25) The support schemes under the CAP provide for direct income support, in particular with a view to ensuring a fair standard of living for the agricultural community. This objective is closely related to the maintenance of rural areas. In order to avoid any misallocation of Community funds, no support payments should be made to farmers who have artificially created the conditions required to obtain such payments.
- (26) In order to achieve the objectives of the CAP, common support schemes have to be adapted to changing developments, if necessary within short time limits. Beneficiaries cannot, therefore, rely on support conditions remaining unchanged and should be prepared for a possible review of schemes, in particular in the light of economic developments or the budgetary situation.
- (27) Regulation (EC) No 1782/2003 established a single payment scheme that combined the existing various support mechanisms into a single scheme of decoupled direct payments. Experience of the application of the single payment scheme shows that some of its elements can be simplified for the benefit of farmers and administrations. Furthermore, given that the single payment scheme has in the meantime been implemented by all Member States that were required to do so, a number of provisions that were linked to its initial implementation have become obsolete and should therefore be adjusted. In this context, a significant under use of payment entitlements has been detected in some cases. To avoid such a situation and taking into account the fact that farmers are already familiar with the functioning of the single payment scheme, the period initially fixed for returning unused payment entitlements to the national reserve should be reduced to two years.

- (28) The main elements of the single payment scheme should be maintained. In particular the determination of national ceilings should ensure that the total level of support and entitlements does not exceed current budgetary constraints. Member States should also operate a national reserve that may be used to facilitate the participation of new farmers in the scheme or to take account of specific needs in certain regions. Rules on the transfer and use of payment entitlements should be laid down to ensure against speculative transfer and accumulation of payment entitlements without a corresponding agricultural basis.
- (29) The progressive integration of further sectors into the single payment scheme makes it necessary to review the definition of the land eligible to benefit from the scheme or for the activation of payment entitlements. However, provision should be made for excluding support for areas cultivated with fruit and vegetables in cases where Member States have opted for deferred integration of this sector into the single payment scheme. Besides, specific measures should be laid down for hemp to prevent support being granted for illegal crops.
- (30) Compulsory set aside of arable land was introduced as a supply control mechanism. Market developments in the arable crops sector together with the introduction of decoupled aids no longer justify the need for maintaining this instrument, which therefore should be abolished. Set-aside entitlements established in accordance with Regulation (EC) No 1782/2003 should therefore be activated as regards hectares subject to the same eligibility conditions as any other entitlement. The abolition of the set-aside obligation may lead to the result that land that was eligible for the purpose of activating set-aside entitlements is no longer eligible. In order to maintain the eligibility of such land it should be provided that certain afforested areas, including those afforested under national schemes complying with the relevant rules in Regulation (EC) No 1698/2005, or areas subject to certain environmental commitments are eligible under the single payment scheme.

(31) Further to the integration of formerly coupled market support into the single payment scheme, the value of payment entitlements was, in those Member States opting for historic implementation, based on the individual level of past support. With a growing number of years elapsing since the introduction of the single payment scheme and following the successive integration of further sectors into the single payment scheme, it is becoming increasingly hard to justify the legitimacy of significant individual differences in the support level which are based only on past support. For this reason Member States that chose the historic implementation model should be allowed under certain conditions to review the allocated payment entitlements with a view to approximating their unit value while complying with the general principles of Community law and the objectives of the CAP. In this context Member States may take into account the specificities of geographical areas when fixing closer values. The levelling of payment entitlements should take place during an adequate transition period and within a limited range of reductions in order to allow farmers reasonably to adapt to the changing levels of support.

(32) Under Regulation (EC) No 1782/2003, Member States had the option to apply the single payment scheme by way of historic or regional implementation. Since then Member States have had the opportunity to evaluate the effects of their choice as regards both their economic and administrative appropriateness. Member States should therefore be given the opportunity to review their initial choice in the light of their experience. For this reason, in addition to the possibility of levelling the value of payment entitlements, Member States that applied the historic model should be authorised to change over to a regionalised application of the single payment scheme in accordance with the options already provided for in Regulation (EC) No 1782/2003. In particular, Member States should be allowed to adjust the territorial distribution of direct support by effecting a gradual redistribution between regions. This option would give Member States increased flexibility to target direct support in the most appropriate way on the basis of the objectives laid down in Article 33 of the Treaty establishing the European Community and on the basis of objective and non-discriminatory criteria such as agricultural potential and environmental criteria. Furthermore, Member States that chose to apply the regional model should be given the option to review their decisions under certain conditions with the aim of approximating the value of payment entitlements according to pre-established annual steps, while complying with the general principles of Community law and the objectives of the CAP. Such changes should take place during an adequate transition period and within a limited range of reductions in order to allow farmers reasonably to adapt to changing levels of support.

(33) Regulation (EC) No 1782/2003, while introducing a decoupled single payment scheme, allowed Member States to exclude in whole or in part certain payments from that scheme. That Regulation also provided for the review and possible revision of this option in the light of market and structural developments. An analysis of relevant experience shows that decoupling introduces flexibility in the choice of products to be farmed, enabling farmers to take their production decisions on the basis of profitability and market response. This is particularly the case for the arable crops and hops sectors, and to a certain extent, the beef and veal and seeds sectors. Therefore, the partially coupled payments in the arable crops and hops sectors should be integrated into the single payment scheme from 2010. In the case of hops, Regulation (EC) No 1782/2003 allowed Member States to grant part of the hops area payments to recognised producer organisations. In order to allow the producer organisations to continue their activities as before, Regulation xxx [new Regulation amending Regulation (EC) No 1234/2007] provides for equivalent amounts to be used in the Member State concerned for the same activities. Such amounts should therefore be deducted from the national ceilings provided for in this Regulation for that Member State.

In order for farmers in the beef and veal and seeds sectors to adjust to the new support arrangements, provision should be made for the integration of the beef and veal payments and the seed aid to be carried out by 2012 at the latest. Since partially coupled payments in the fruit and vegetable sectors were only recently introduced, and only as a transitional measure, the exclusion of such payments from the single payment scheme should be allowed to continue, whilst Member States should be allowed to review their decisions with a view to increasing the degree of decoupling.

(34) However, as regards the suckler cow and sheepmeat and goatmeat sectors, maintaining a minimum level of agricultural production may still be necessary for the agricultural economies in certain regions and, in particular, where farmers cannot have recourse to other economic alternatives. Against this background, Member States should have the option to maintain coupled support either at the current level or at a lower level. In that case, special provision should be made for compliance with the identification and registration requirements provided for by Regulation (EC) No 1760/2000 of the European Parliament and of the Council of 17 July 2000 establishing a system for the identification and registration of bovine animals and regarding the labelling of beef and beef products¹⁵ and Council Regulation (EC) No 21/2004 of 17 December 2003 establishing a system for the identification and registration of ovine and caprine animals¹⁶, in particular with a view to ensuring the traceability of animals.

¹⁵ OJ L 204, 11.8.2000, p. 1.

¹⁶ OJ L 5, 9.1.2004, p. 8.

(35) Member States should be allowed to use up to 10% of their national ceilings for the single payment scheme for granting specific support in clearly defined cases. Such support should allow Member States to address environmental and animal welfare issues and improve the quality and marketing of agricultural products. Specific support should also be available to buffer the consequences of the phasing-out of milk quotas and the decoupling of support in particularly sensitive sectors. Given the growing importance of the effective management of risks, Member States should be given the option to contribute financially to the premiums farmers pay for crop, animal and plant insurance as well as to the financing of compensation for certain economic losses in the event of animal or plant diseases and environmental incidents. With a view to respecting the Community's international obligations, the resources that could be used for any coupled support should be limited to an appropriate level while allowing for transitional measures for Member States facing particular difficulties. The conditions applicable to the financial contributions for crop, animal and plant insurance premium and compensation in relation to animal and plant disease and environmental incidents should be established accordingly. Moreover, Member States which have made use of Article 69 of Regulation (EC) No 1782/2003 should be given a sufficient transitional period in order to allow for a smooth transition to the new rules for specific support.

(36) Experience has shown that currently Member States do not use the entire amount of the funds available under the national ceilings for the single payment scheme in particular where the payment entitlements have not been activated. In order to facilitate the more efficient use of the funds it is appropriate to allow Member States to grant support above their national ceilings up to an amount the level of which should ensure that it remains within the margins of the under-execution of the national ceiling. Such amount should be calculated on the basis of the budget under-execution for the most recent year available and should not put into question the respect of the total net ceiling for direct payments per Member State. For this reason and to ensure that farmers do not face unpredicted reductions of payments, the calculation should be carried out within certain safety margins. These amounts should either be used for the funding of specific support or transferred to the EAFRD.

- (37) Direct payments under the single payment scheme were based on reference amounts of direct payments that were received in the past or on regionalised per hectare amounts. Farmers in the new Member States did not receive Community direct payments and had no historical references for the calendar years 2000, 2001 and 2002. Therefore, provision was made under Regulation (EC) No 1782/2003 for the single payment scheme in the new Member States to be based on regionalised per hectare amounts. Several years after the accession of the new Member States to the Community, however, the use of reference periods could be considered for those new Member States that have not yet moved to the single payment scheme. With a view to facilitating the transition to the single payment scheme and, in particular, to avoiding speculative applications, it is therefore appropriate to authorise the new Member States to take account of the areas for which historically support under the single area payment scheme was granted for the calculation of the payment entitlements under the single payment scheme.
- (38) Under the regionalised option for the single payment scheme the new Member States should have the possibility to adjust the value of the payment entitlements per hectare on the basis of objective criteria in order to ensure equal treatment between farmers and to avoid market distortions.
- (39) The new Member States should have the same possibilities as the other Member States to partially implement the single payment scheme.

(40) The decoupling of direct support and the introduction of the single payment scheme were essential elements in the process of reforming the CAP. However, in 2003 several reasons called for specific support to be maintained for a number of crops. Experience gained through the implementation of Regulation (EC) No 1782/2003 together with the evolution of the market situation indicates that schemes that were kept outside the single payment scheme in 2003 can now be integrated into that scheme to promote more market-oriented and sustainable agriculture. This is the case in particular with the olive oil sector where only marginal coupling was applied. It is also the case with durum wheat, protein crops, rice, potato starch, and nuts payments, where the decreasing effectiveness of remaining coupled payment supports the decoupling option. In the case of flax and hemp, the support for processing should also be abolished and the relevant amounts integrated into the single payment scheme. As regards protein crops, rice, potato starch, nuts and flax and hemp, in order to allow producers to adjust, it is appropriate to integrate the aids for those sectors into the single payment scheme from 2012 while at the same time and with the exception of the processing aids which are dealt with under Regulation xxx/08 [Regulation amending Regulation (EC) No 1234/2008], allowing Member States to decide on an earlier date for their integration. As regards nuts, Member States should be allowed to continue to pay the national part of the aid in a coupled way in order to cushion the effects of decoupling.

- (41) As a consequence of the integration of further sectors into the single payment scheme, provision should be made for the calculation of the new level of individual income support under that scheme. In the case of nuts, potato starch, flax and hemp and dried fodder, such an increase should be granted on the basis of the support farmers received in most recent years. However, in the case of the integration of payments that were partially excluded from the single payment scheme, Member States should be given the option to use the original reference periods. For potato starch, the amounts available for distribution in Germany and the Netherlands should take into account the cross-border deliveries of potato starch produced in one of those Member States for processing in the other. Furthermore, with a view to covering the specific needs of their agricultural sectors and to ensure that the support received in the past by farmers is not drastically reduced, Member States should be allowed under certain limits to use the funds to be integrated into the single payment scheme to support farmers who exercised certain agricultural activities in other sectors during the same years, such as using grassland or keeping animals.
- (42) Regulation (EC) No 1782/2003 established specific support for energy crops with a view to assisting the sector to develop. Due to recent developments in the bio-energy sector and, in particular, to the strong demand for such products on international markets and the introduction of binding targets for the share of bio-energy in total fuel by 2020, there is no longer sufficient reason to grant specific support for energy crops.

- (43) When the cotton sector was integrated into the single payment scheme, it was deemed necessary for part of the support to continue to be linked to the cultivation of cotton through a crop specific payment per eligible hectare to avoid any risk of production disruption to the regions of cotton production. This choice should be maintained in accordance with the objectives, set out in Protocol 4 on cotton annexed to the Act of Accession of Greece.
- (44) To buffer the effects of the restructuring process in Member States which have granted the restructuring aid provided for in Council Regulation (EC) No 320/2006 of 20 February 2006 establishing a temporary scheme for the restructuring of the sugar industry in the Community¹⁷, the aid foreseen for sugar beet and cane producers for a maximum of five consecutive years should be maintained.
- (45) When the fruit and vegetables sector was integrated into the single payment scheme, a temporary coupled area aid for strawberries and raspberries was provided for. It is appropriate to extend such support beyond the original deadline while at the same time providing for the decoupling of this support from production. The national ceilings should be adjusted to take this into account.
- (46) The transitional simplified support scheme for granting direct payments in the new Member States based on area, the single area payment scheme, has proved to be an efficient and simple system for granting income support to farmers in the new Member States. In the interest of simplification, the new Member States that opted to apply the scheme should be allowed to continue to apply it until the end of 2013.

¹⁷ OJ L 58, 28.2.2006, p. 42.

- (47) Further to the respective reforms of the sugar and fruit and vegetable sectors and their integration into the single payment scheme, those Member States that opted to apply the single area payment scheme should be allowed to grant income support to growers of sugar beet, cane and chicory and producers of certain fruit and vegetables in the form of separate payments. Likewise, the same Member States should be allowed to pay separate specific support under similar conditions to those applicable to the other Member States.
- (48) As a consequence of the phasing-in of direct payments in the new Member States, new Member States were allowed to grant complementary national direct payments. The conditions for granting such payments should be maintained.
- (49) In the initial allocation of payment entitlements by the Member States, some errors led to particularly high payments to farmers. This non-compliance is normally the subject of financial correction until such time as corrective measures are taken. However, taking into account the time that has elapsed since the payment entitlements were first allocated, the necessary correction would lead to disproportionate legal and administrative constraints for Member States. In the interest of legal certainty the allocation of such payments should therefore be regularised.

- (50) In accordance with Regulation (EC) No 1782/2003, Spain, France and Portugal decided to exclude from the single payment scheme the direct payments made in the French overseas departments, the Azores and Madeira and the Canary Islands and to grant them under the conditions established in Title IV of that Regulation. Some of the aid provided for in that Title has been completely integrated into the single payment scheme. In the interest of simplification and to take into account the specific circumstances of the outermost regions, such aid should be managed within the support programmes established by Regulation (EC) No 247/2006 of 30 January 2006 laying down specific measures for agriculture in the outermost regions of the Union¹⁸. To this end the relevant funds should be transferred from the national ceilings for direct payments to the financial amount set out in that Regulation. In order to allow the Member States concerned to adapt the support programmes, such transfers should only take place in 2010. In the meantime direct payments will apply in the outermost regions under the provisions of Regulation (EC) No 1782/2003. Regulation (EC) No 247/2006 should therefore be amended accordingly.
- (51) It should be specified that the provisions of this Regulation, which could give rise to behaviour of a Member State possibly constitutive of State aid, are, save as otherwise provided for in this Regulation, excluded from the application of the State aid rules given that the provisions concerned include appropriate conditions for the granting of support, or envisage the adoption of such conditions by the Commission, in order to prevent undue distortion of competition.
- (52) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC¹⁹ of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission,

¹⁸ OJ L 42, 14.2.2006, p.1.

¹⁹ OJ L 184, 17.7.1999, p. 23.

(53) In order to allow both Member States and the farming community to benefit from the simplification mechanisms introduced by this Regulation, and in particular from the abolition of the set aside obligation, this Regulation should apply from 1 January 2009. However, those provisions that may reduce farmers' rights or create new obligations should only apply from 2010. Furthermore, Member States should be given sufficient time to implement the provisions allowing further decoupling of direct payments and those allowing them to review the decisions taken in the context of the 2003 reform. For this reason the relevant provisions of this Regulation should only apply from 2010 and the repealed Regulation (EC) No 1782/2003 should be applied during 2009 to those aid schemes that will only be integrated into the single payment scheme from 2010,

HAS ADOPTED THIS REGULATION:

TITLE II

GENERAL PROVISIONS ON DIRECT PAYMENTS

CHAPTER 1

CROSS COMPLIANCE

Article 4

Main requirements

1. A farmer receiving direct payments shall respect the statutory management requirements listed in Annex II, and the good agricultural and environmental condition referred to in Article 6.

The obligations referred to in the first subparagraph shall apply only in so far as the agricultural activity of the farmer or the agricultural area of the holding is concerned.

2. The competent national authority shall provide the farmer, inter alia by the use of electronic means, with the list of statutory management requirements and the good agricultural and environmental condition to be respected.

Article 5

Statutory management requirements

1. The statutory management requirements listed in Annex II shall be established by Community legislation in the following areas:
 - (a) public, animal and plant health,
 - (b) environment,
 - (c) animal welfare.
2. The acts referred to in Annex II shall apply as in force and, in the case of Directives, as implemented by the Member States.

Article 6

Good agricultural and environmental condition

1. Member States shall ensure that all agricultural land, especially land which is no longer used for production purposes, is maintained in good agricultural and environmental condition. Member States shall define, at national or regional level, minimum requirements for good agricultural and environmental condition on the basis of the framework established in Annex III, taking into account the specific characteristics of the areas concerned, including soil and climatic condition, existing farming systems, land use, crop rotation, farming practices, and farm structures. Member States may not define minimum requirements which are not foreseen in that framework.

The standards listed in the third column of Annex III shall be optional except where:

- (a) a Member State had defined, for such a standard, a minimum requirement for the good agricultural and environmental condition before 1 January 2009, and/or
 - (b) national rules addressing the standard are applied in the Member State.
2. Member States other than the new Member States shall ensure that land which was under permanent pasture at the date provided for the area aid applications for 2003 is maintained under permanent pasture. The new Member States other than Bulgaria and Romania shall ensure that land which was under permanent pasture on 1 May 2004 is maintained under permanent pasture. Bulgaria and Romania shall ensure that land which was under permanent pasture on 1 January 2007 is maintained under permanent pasture.

However a Member State may, in duly justified circumstances, derogate from the first subparagraph, provided that it takes action to prevent any significant decrease in its total permanent pasture area.

The first subparagraph shall not apply to land under permanent pasture to be afforested, if such afforestation is compatible with the environment and with the exclusion of plantations of Christmas trees and fast growing species cultivated in the short term.

CHAPTER 2

MODULATION AND FINANCIAL DISCIPLINE

Article 7

Modulation

1. Any amount of direct payments to be granted in a given calendar year to a farmer in excess of EUR 5 000 shall be reduced for each year until 2012 by the following percentages:
 - (a) 2009: 7%,
 - (b) 2010: 8%,
 - (c) 2011: 9%,
 - (d) 2012: 10%.

2. The reductions provided for in paragraph 1 shall be increased by 4 percentage points for amounts exceeding EUR 300 000.

3. Paragraphs 1 and 2 shall not apply to direct payments granted to farmers in the French overseas departments, in the Azores and Madeira, and in the Canary and Aegean islands.

Article 8
Net ceilings

1. Without prejudice to Article 11 of this Regulation, the total net amounts of direct payments which may be granted in a Member State in respect of a calendar year after application of Articles 7 and 10 of this Regulation and Article 1 of Regulation (EC) No 378/2007 and with the exception of direct payments granted under Regulations (EC) No 247/2006 and (EC) No 1405/2006 shall not be higher than the ceilings set out in Annex IV to this Regulation. Where necessary, Member States shall make a linear reduction of the amounts of direct payments which are subject to the reduction provided for in Articles 7 and 10 of this Regulation and Article 1 of Regulation (EC) No 378/2007, in order to comply with the ceilings set out in that Annex.

2. The Commission, in accordance with the procedure referred to in Article 141(2) of this Regulation, shall review the ceilings set out in Annex IV to this Regulation in order to take account of:
 - (a) modifications to the total maximum amounts of direct payments that may be granted,

 - (b) modifications to the voluntary modulation system provided for in Regulation (EC) No 378/2007,

 - (c) structural changes to the holdings,

 - (d) transfers to the European Agricultural Fund for Rural Development (EAFRD) in accordance with Article 136.

Article 9

Amounts resulting from modulation

1. The amounts resulting from application of the reductions provided for in Article 7 of this Regulation, in any Member State other than the new Member States, shall be available as additional Community support for measures under rural development programming financed under the European Agricultural Fund for Rural Development (EAFRD) as specified in Regulation (EC) No 1698/2005, in accordance with the conditions set out in this Article.

2. The amounts corresponding to one percentage point shall be allocated to the Member States where the corresponding amounts have been generated. The amounts corresponding to the reduction by 4 percentage points shall be allocated amongst the Member States concerned in accordance with the procedure referred to in Article 141(2) on the basis of the following criteria:
 - (a) agricultural area,
 - (b) agricultural employment,
 - (c) gross domestic product (GDP) per capita in purchasing power.

However, any Member State concerned shall receive at least 80% of the total amounts referred to in the first subparagraph generated in that Member State.

3. By way of derogation from the second subparagraph of paragraph 2, if in a Member State the proportion of rye as part of its total cereal production exceeded 5% on average during the period 2000–2002 and its proportion of the total Community production of rye exceeded 50% during the same period, at least 90% of the amounts which the modulation generated in the Member State concerned shall be reallocated to that Member State, until 2013 included.

In such a case, without prejudice to the possibilities provided for by Article 68, at least 10% of the amount allocated to the Member State concerned shall be available for the measures referred to in paragraph 1 of this Article in rye producing regions.

For the purpose of this paragraph, “cereal” means the products listed in Annex V.

4. The remaining amount resulting from the application of Article 7(1) and the amounts resulting from the application of Article 7(2) shall be allocated to the Member State where the corresponding amounts have been generated, in accordance with the procedure referred to in Article 141(2). They shall be used in accordance with Article 69(5a) of Regulation (EC) No 1698/2005.

Article 10

Special rules for modulation in the new Member States

1. Article 7 shall only apply to farmers in a new Member State in any given calendar year if the level of direct payments applicable in that Member State for that calendar year under Article 121 is at least equal to the then applicable level in the Member States other than the new Member States, taking into account any reductions applied under Article 7(1).
2. If Article 7 applies to farmers in a new Member State, the percentage applicable under Article 7(1) shall be limited to the difference between the level of direct payments applicable to it under Article 121 and the level in the Member States other than the new Member States, taking into account any reductions applied under Article 7(1).
3. Any amount resulting from the application of Article 7(1) and (2) shall be allocated to the new Member State where the corresponding amounts have been generated, in accordance with the procedure referred to in Article 141(2). They shall be used in accordance with Article 69(5a) of Regulation (EC) No 1698/2005.

Article 11

Financial discipline

1. With a view to ensuring that the amounts for the financing of the market related expenditure and direct payments of the CAP currently under heading 2 of Annex I to the Inter Institutional Agreement on budgetary discipline and sound financial management²⁰ respect the annual ceilings set out in the Decision of the Representatives of the Governments of the Member States, meeting within the Council on 18 November 2002, concerning the Conclusions of the European Council meeting in Brussels on 24 and 25 October 2002, an adjustment of the direct payments shall be determined when the forecasts for the financing of the aforementioned measures under heading 2 for a given financial year, increased by the amounts given in Articles 134 and 135 of this Regulation and before application of modulation provided for in Articles 7 and 10 of this Regulation and Article 1(1) of Regulation (EC) No 378/2007, indicate that the abovementioned annual ceiling, taking into account a margin of EUR 300 million below that ceiling, will be exceeded.

2. The Council, acting on a proposal from the Commission presented not later than 31 March of the calendar year in respect of which the adjustments referred to in paragraph 1 apply, shall determine these adjustments at the latest by 30 June of the calendar year in respect of which the adjustments apply.

3. In the framework of the application of the schedule of increments provided for in Article 121 to all direct payments granted in the new Member States, paragraph 1 of this Article shall not apply to the new Member States until the beginning of the calendar year, in respect of which the level of direct payments applicable in the new Member States is at least equal to the then applicable level of such payments in the other Member States.

²⁰ OJ C 139, 14.6.2006, p. 1.

CHAPTER 3

FARM ADVISORY SYSTEM

Article 12

Farm advisory system

1. Member States shall operate a system of advising farmers on land and farm management (hereinafter referred to as the “farm advisory system”) operated by one or more designated authorities or by private bodies.
2. The farm advisory system shall cover at least the statutory management requirements and the good agricultural and environmental condition referred to in Chapter 1.
3. Farmers may participate in the farm advisory system on a voluntary basis.

Member States may determine, in accordance with objective criteria, the priority categories of farmer that have access to the farm advisory system.

4. By 31 December 2010 at the latest, the Commission shall submit a report to the Council on the application of the farm advisory system, accompanied, if necessary, by appropriate proposals.

Article 13

Obligations of designated authorities and private bodies

Without prejudice to national legislation concerning public access to documents, Member States shall ensure that the designated authorities and private bodies referred to in Article 12(1) do not disclose personal or individual information and data they obtain in their advisory activity to persons other than the farmer managing the holding concerned, with the exception of any irregularity or infringement found during their activity which is covered by an obligation laid down in Community or national law to inform a public authority, in particular in the case of criminal offences.

CHAPTER 4

INTEGRATED ADMINISTRATION AND CONTROL SYSTEM

Article 14

Scope

Each Member State shall set up and operate an integrated administration and control system, (hereinafter referred to as the “integrated system”).

The integrated system shall apply to the support schemes listed in Annex I.

To the extent necessary, it shall also apply to the administration and control of the rules laid down in Chapters 1 and 2 of this Title.

Article 15

Elements of the integrated system

1. The integrated system shall comprise the following elements:
 - (a) a computerised database;
 - (b) an identification system for agricultural parcels;
 - (c) a system for the identification and registration of payment entitlements;
 - (d) aid applications;
 - (e) an integrated control system;
 - (f) a single system to record the identity of each farmer who submits an aid application.

2. Where Articles 52 and 53 of this Regulation apply, the integrated system shall incorporate a system for the identification and registration of animals set up in accordance with Regulations (EC) No 1760/2000 and (EC) No 21/2004.
3. Member States may include a geographical information system for olive cultivation in the identification system for agricultural parcels.

Article 16

Computerised database

1. The computerised database shall record, for each agricultural holding, the data obtained from aid applications.

This database shall in particular allow consultation through the competent authority of the Member State, of the data relating to the calendar and/or marketing years, starting from 2000. It shall also allow direct and immediate consultation of the data relating to the four previous years.

2. Member States may set up decentralised databases on condition that these, and the administrative procedures for recording and accessing data, are designed homogeneously throughout the territory of the Member State and are compatible with one another in order to allow for cross-checks.

Article 17

Identification system for agricultural parcels

The identification system for agricultural parcels shall be established on the basis of maps or land registry documents or other cartographic references. Use shall be made of computerised geographical information system techniques, including preferably aerial or spatial orthoimagery, with a homogenous standard guaranteeing accuracy at least equivalent to cartography at a scale of 1:10000.

Article 18

System for the identification and registration of payment entitlements

1. A system for the identification and registration of payment entitlements shall be set up allowing for verification of the entitlements and for cross-checks with the aid applications and the identification system for agricultural parcels.
2. This system shall allow direct and immediate consultation, through the competent authority of the Member State, of the data relating to at least the previous four consecutive calendar years.

Article 19
Aid applications

1. Each year, a farmer shall submit an application for direct payments indicating, where applicable:
 - (a) all the agricultural parcels on the holding, and where the Member State is applying Article 15(3), the number of olive trees and their positioning in the parcel,
 - (b) the payment entitlements declared for activation,
 - (c) any other information provided for by this Regulation or by the Member State concerned.

2. Member States shall provide, inter alia by the use of electronic means, pre-established forms based on the areas determined in the previous year as well as graphic material indicating the location of those areas and, where appropriate, the positioning of olive trees. A Member State may decide that the aid application needs to contain only changes with respect to the aid application submitted the previous year.

3. A Member State may decide that a single aid application shall cover several or all support schemes listed in Annex I or other support schemes.

Article 20

Verification of eligibility conditions

1. Member States shall carry out administrative controls on the aid applications to verify the eligibility conditions for the aid.
2. Administrative controls shall be supplemented by a system of on-the-spot checks to verify eligibility for the aid. For this purpose, Member States shall draw up a sampling plan of agricultural holdings.

Member States may use remote sensing and Global Navigation Satellite System (GNSS) techniques as a means of carrying out on-the-spot checks on agricultural parcels.

3. Each Member State shall designate an authority responsible for coordinating the controls and checks provided for in this Chapter.

Where a Member State provides for the delegation of some aspects of the work to be carried out under this Chapter to specialised agencies or firms, the designated authority shall retain control over, and responsibility for, that work.

Article 21

Reductions and exclusions in the event of non-compliance with eligibility rules

1. Without prejudice to any reduction or exclusion provided for in Article 23, where it is found that a farmer does not comply with the eligibility conditions relating to the granting of the aid as provided for in this Regulation, the payment or part of the payment granted or to be granted for which the conditions of eligibility have been met shall be subject to the reductions and exclusions to be laid down in accordance with the procedure referred to in Article 141(2).
2. The percentage of reduction shall be graduated according to the severity, extent, permanence and repetition of the non-compliance found and may go as far as total exclusion from one or several aid schemes for one or more calendar years.

Article 22

Controls on cross compliance

1. Member States shall carry out on-the-spot checks to verify whether a farmer complies with the obligations referred to in Chapter 1.
2. Member States may make use of their existing administration and control systems to ensure compliance with the statutory management requirements and good agricultural and environmental condition.

These systems, and notably the system for the identification and registration of animals set up in accordance with Directive 2008/71 EC²¹ and Regulations (EC) No 1760/2000 and (EC) No 21/2004, shall be compatible with the integrated system, as provided for in Article 26(1) of this Regulation.

²¹ OJ L 213, 8.8. 2008, p. 31

Article 23

Reduction of or exclusion from payments in the event of non-compliance with cross compliance rules

1. Where the statutory management requirements or good agricultural and environmental condition are not complied with at any time in a given calendar year (hereinafter “the calendar year concerned”), and the non-compliance in question is the result of an act or omission directly attributable to the farmer who submitted the aid application in the calendar year concerned, the total amount of direct payments granted or to be granted, following application of Articles 7, 10 and 11 to that farmer, shall be reduced or excluded in accordance with the detailed rules laid down in Article 24.

The first subparagraph shall also apply where the non-compliance in question is the result of an act or omission directly attributable to the person to whom or from whom the agricultural land was transferred.

By way of derogation from the second subparagraph, from 2010, where the person to whom the act or omission is directly attributable has submitted an aid application in the calendar year concerned, the reduction or exclusion shall be applied to the total amounts of direct payments granted or to be granted to that person.

For the purpose of this paragraph, “transfer” means any type of transaction whereby the agricultural land ceases to be at the disposal of the transferor.

2. Notwithstanding paragraph 1 and in accordance with the conditions laid down in the detailed rules referred to in Article 24(1) of this Regulation, Member States may decide not to apply a reduction or exclusion amounting to EUR 100 or less per farmer and per calendar year.

Where a Member State decides to make use of the option provided for in the first subparagraph, in the following year the competent authority shall take the actions required to ensure that the farmer remedies the findings of non-compliance concerned. The finding and the obligation to take remedial action shall be notified to the farmer.

Article 24

Detailed rules on reductions and exclusions in the event of non-compliance with cross compliance rules

1. Detailed rules for the reductions and exclusions referred to in Article 23 shall be laid down in accordance with the procedure referred to in Article 141(2). In this context, account shall be taken of the severity, extent, permanence and repetition of the non-compliance found as well as of the criteria set out in paragraphs 2, 3 and 4 of this Article.
2. In the case of negligence, the percentage of reduction shall not exceed 5% and, in the case of repeated non-compliance, 15%.

In duly justified cases Member States may decide that no reduction shall be applied where, given its severity, extent and permanence, a case of non-compliance is to be considered as minor. However, cases of non-compliance which constitute a direct risk to public or animal health shall not be considered as minor.

Unless the farmer has taken immediate remedial action putting an end to the non-compliance found, the competent authority shall take the actions required that may, where appropriate, be limited to an administrative control to ensure that the farmer remedies the findings of non-compliance concerned. The finding of minor non-compliance and the obligation to take remedial action shall be notified to the farmer.

3. In the case of intentional non-compliance, the percentage of reduction shall not in principle be less than 20% and may go as far as total exclusion from one or several aid schemes and apply for one or more calendar years.
4. In any case, the total amount of reductions and exclusions for one calendar year shall not be more than the total amount referred to in Article 23(1).

Article 25

Amounts resulting from cross compliance

The amounts resulting from the application of the reductions and exclusions in the event of non-compliance with Chapter 1 shall be credited to the EAGF. Member States may retain 25% of those amounts.

Article 26

Compatibility of support schemes with the integrated system

1. For the purpose of applying the support schemes listed in Annex VI, Member States shall ensure that the administration and control procedures applied to these schemes are compatible with the integrated system in the following respects:
 - (a) the computerised database;
 - (b) the identification systems for agricultural parcels;
 - (c) the administrative controls.

To this end, these systems shall be set up so as to allow, without any problems or conflicts, a common functioning of, or the exchange of data, between them.

2. Member States may, for the purposes of applying Community or national support schemes other than those listed in Annex VI, incorporate into their administration and control procedures one or more components of the integrated system.

Article 27

Information and control

1. The Commission shall be kept regularly informed of the application of the integrated system.

It shall organise exchanges of views on this subject with the Member States.

2. In accordance with Article 37 of Regulation (EC) No 1290/2005, after informing the competent authorities concerned in good time, authorised representatives appointed by the Commission may carry out:

- (a) any examination or control relating to the measures taken in order to establish and implement the integrated system,

- (b) controls at the specialised agencies and firms referred to in Article 20(3).

3. Without prejudice to the responsibilities of the Member States for the implementation and application of the integrated system, the Commission may seek the assistance of specialised bodies or persons in order to facilitate the establishment, monitoring and utilisation of the integrated system, in particular with a view to providing the competent authorities of the Member States with technical advice, should they request it.

CHAPTER 5

OTHER GENERAL PROVISIONS

Article 28

Minimum requirements for receiving direct payments

1. From 2010, Member States shall not grant direct payments to a farmer in one of the following cases:
 - (a) where the total amount of direct payments claimed or due to be granted before the reductions and exclusions provided for in Articles 21 and 23 in a given calendar year is less than EUR **100**, or
 - (b) where the eligible area of the holding for which direct payments are claimed or due to be granted before the reductions and exclusions provided for in Article 21 is less than one hectare.

In order to take account of the structure of their agricultural economies, Member States may adjust the thresholds referred to in points (a) and (b) within the limits set out in Annex VII.

Farmers holding special entitlements referred to in Article 44(1) shall be subject to the condition referred to in point (a) of this Article.

The Member States concerned may decide not to apply this paragraph in the French overseas departments, in the Azores and Madeira, and in the Canary and Aegean islands.

Where the amount paid is reduced as a consequence of a progressive introduction of direct payments as foreseen in Article 121 of this Regulation, in point K of Annex VII to Regulation (EC) No 1782/2003 or in point C of Annex IX to this Regulation, the amount claimed or due to be granted shall be calculated on the basis of the final amount of support to be received by the farmer.

2. From 2010, Member States may establish appropriate objective and non-discriminatory criteria to ensure that no direct payments are granted to a natural or legal person:
 - (a) whose agricultural activities form only an insignificant part of its overall economic activities, or
 - (b) whose principal business or company objects do not consist of exercising an agricultural activity.
3. Payment entitlements not giving right to payments during two consecutive years due to the application of paragraphs 1 and 2 shall revert to the national reserve.

Article 29

Payment

1. Save as otherwise provided for in this Regulation, payments under support schemes listed in Annex I shall be made in full to the beneficiaries.
2. Payments shall be made in up to two instalments per year within the period from 1 December to 30 June of the following calendar year.
3. Payments under support schemes listed in Annex I shall not be made before the verification of eligibility conditions, to be carried out by the Member State pursuant to Article 20, has been finalised.
4. By way of derogation from paragraph 2 of this Article and in accordance with the procedure referred to in Article 141(2), the Commission may:
 - (a) provide for advances;
 - (b) authorise the Member States, subject to the budgetary situation, to pay prior to 1 December advances in regions where, due to exceptional conditions, farmers face severe financial difficulties:
 - (i) of up to 50% of the payments,or
 - (ii) of up to 80% of the payments where advances have already been provided for.

Article 30
Circumvention clause

Without prejudice to any specific provisions in individual support schemes, no payment shall be made to beneficiaries for whom it is established that they artificially created the conditions required for obtaining such payments with a view to obtaining an advantage contrary to the objectives of that support scheme.

Article 31
Force majeure and exceptional circumstances

For the purposes of this Regulation, *force majeure* or exceptional circumstances shall be recognised by the competent authority in cases such as:

- (a) the death of the farmer;
- (b) long-term professional incapacity of the farmer;
- (c) a severe natural disaster gravely affecting the holding's agricultural land;
- (d) the accidental destruction of livestock buildings on the holding;
- (e) an epizootic affecting part or all of the farmer's livestock.

Article 32
Review

Support schemes listed in Annex I shall apply without prejudice to a possible review at any time in the light of economic developments and the budgetary situation.

TITLE III

SINGLE PAYMENT SCHEME

CHAPTER 1

GENERAL IMPLEMENTATION

Article 33

Payment entitlements

1. Support under the single payment scheme shall be available to farmers if they:
 - (a) hold payment entitlements which they have obtained in accordance with Regulation (EC) No 1782/2003;
 - (b) obtain payment entitlements under this Regulation:
 - (i) by transfer,
 - (ii) from the national reserve,
 - (iii) pursuant to Annex IX,
 - (iv) pursuant to Articles 47(2), 59, the third subparagraph of Article 64(2), Articles 65 and 68(4)(c).
2. For the purpose of Articles 47(2), 57(6), 64(2) and 65 a farmer is considered to be holding payment entitlements where payment entitlements have been allocated or definitively transferred to that farmer.

3. Set-aside entitlements established in accordance with Articles 53(2), 63(2) and 71j of Regulation (EC) No 1782/2003 shall not be subject to previous set aside obligations.

Article 34

Activation of payment entitlements per eligible hectare

1. Support under the single payment scheme shall be granted to farmers upon activation of a payment entitlement per eligible hectare. Activated payment entitlements shall give a right to the payment of the amounts fixed therein.
2. For the purposes of this Title, “eligible hectare” means:

Except in the case of *force majeure* or exceptional circumstances, these parcels shall be at the farmer's disposal on a date fixed by the Member State which shall be no later than the date fixed in that Member State for amending the aid application.
2. Member States may, in duly justified circumstances, authorise the farmer to modify his declaration on condition that he adheres to the number of hectares corresponding to his payment entitlements and the conditions for granting the single payment for the area concerned.

Article 36

Modification of payment entitlements

The payment entitlements per hectare shall not be modified, save as otherwise provided for in this Regulation.

The Commission, in accordance with the procedure referred to in Article 141(2), shall lay down detailed rules for the modification, from 2010, of payment entitlements, in particular in the case of fractions of entitlements.

Article 37

The area corresponding to the number of eligible hectares in respect of which an application for a single payment has been submitted may be the subject of an application for any other direct payment as well as for any other aid not covered by this Regulation, save as otherwise provided for in this Regulation.

Article 38

Use of land in the event of the deferred integration of the fruit and vegetables sector

Where a Member State has made use of the option provided for in the second subparagraph of Article 51 of Regulation (EC) No 1782/2003 (hereinafter referred to as "deferred integration"), the parcels in the regions concerned by the decision, up to a date not later than 31 December 2010 may not be eligible if used for:

- (a) the production of fruit and vegetables,
- (b) the production of ware potatoes, or
- (c) nurseries.

In the event of the deferred integration referred to in the first subparagraph, Member States may decide to allow secondary crops to be cultivated on the eligible hectares during a maximum period of three months starting each year on 15 August. However, at the request of a Member State, this date may be modified in accordance with the procedure referred to in Article 141(2) for regions where cereals are normally harvested earlier for climatic reasons.

Article 39

Use of land for the production of hemp

1. Areas used for the production of hemp shall only be eligible if the varieties used have a tetrahydrocannabinol content not exceeding 0,2%. Member States shall establish a system for verifying the tetrahydrocannabinol content of the crops grown on at least 30% of the areas under hemp. However, if a Member State introduces a system of prior approval for such cultivation, the minimum shall be 20%.
2. In accordance with the procedure referred to in Article 141(2), the granting of payments shall be made subject to the use of certified seeds of certain varieties.

Article 40

National ceilings

1. For each Member State and each year, the total value of all allocated payment entitlements and of the ceilings fixed in accordance with Articles 51(2) and 69(3) of this Regulation, or, for 2009, in accordance with Article 64(2) of Regulation (EC) No 1782/2003 shall not be higher than the respective national ceiling determined in Annex VIII to this Regulation.

Where payment entitlements are allocated to wine growers and taking account of the latest data made available to it by the Member States in accordance with Articles 9 and 102(6) of Council Regulation (EC) No 479/2008 of 29 April 2008 on the common organisation of the market in wine²⁶, the Commission shall, in accordance with the procedure referred to in Article 141(2) of this Regulation, adapt the national ceilings set out in Annex VIII to this Regulation. 2. Where necessary, a Member State shall make a linear reduction in the value of the payment entitlements in order to ensure compliance with the ceiling set out in Annex VIII.

Article 41

National reserve

1. Each Member State shall operate a national reserve that incorporates the difference between the ceilings determined in Annex VIII to this Regulation and the total value of all allocated payment entitlements and the ceilings fixed in accordance with Articles 51(2), and 69(3) of this Regulation, or, for 2009, the ceilings fixed in accordance with Article 64(2) of Regulation (EC) No 1782/2003.

²⁶ OJ L 148, 6.6.2008, p. 1.

2. Member States may use the national reserve to allocate, as a matter of priority and according to objective criteria, payment entitlements to farmers who commence their agricultural activity and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.
3. Member States that do not apply Article 68(1)(c) may use the national reserve for the purpose of establishing, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, payment entitlements for farmers in areas subject to restructuring and/or development programmes relating to one or other form of public intervention in order to ensure against land being abandoned and/or to compensate farmers for specific disadvantages in those areas.
4. Member States shall use the national reserve for the purpose of allocating in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, payment entitlements for farmers placed in a special situation, to be defined by the Commission in accordance with the procedure referred to in Article 141(2).
5. When applying this Article, Member States may increase the unit value and/or the number of payment entitlements allocated to farmers.

Article 42

Unused payment entitlements

Any payment entitlement which has not been activated in accordance with Article 34 for a period of two years shall be added to the national reserve, except in the case of *force majeure* or exceptional circumstances. However, for 2009, payment entitlements not activated for the two year period 2007-2008, shall not be added to the national reserve if they were activated in 2006 and, for 2010, payment entitlements not activated for the two year period 2008-2009 shall not be added to the national reserve if they were activated in 2007.

Article 43

Transfer of payment entitlements

1. Payment entitlements may only be transferred to a farmer established within the same Member State except in the case of transfer by actual or anticipated inheritance.

However, even in the case of actual or anticipated inheritance, payment entitlements may only be used in the Member State where the payment entitlements were established.

A Member State may decide that payment entitlements may only be transferred or used within one and the same region.

2. Payment entitlements may be transferred by sale or any other definitive transfer with or without land. In contrast, lease or similar types of transactions shall be allowed only if the payment entitlements transferred are accompanied by the transfer of an equivalent number of eligible hectares.
3. Where payment entitlements are sold, with or without land, Member States may, acting in compliance with the general principles of Community law, decide that part of the payment entitlements sold revert to the national reserve or that their unit value is reduced in favour of the national reserve, in accordance with criteria to be defined by the Commission in accordance with the procedure referred to in Article 141(2).

Article 44

Conditions for special entitlements

1. Save as otherwise provided for in this Regulation, payment entitlements established under Section 2 of Chapter 3 of Title III and Article 71*m* of Regulation (EC) No 1782/2003, and Article 60 and the fourth subparagraph of Article 65 of this Regulation, hereinafter referred to as “special entitlements”, shall be subject to the conditions laid down in paragraphs 2 and 3 of this Article.

2. By way of derogation from Article 34(1) a farmer who has special entitlements shall be authorised by the Member State to derogate from the requirement to activate his payment entitlements by an equivalent number of eligible hectares, provided that he maintains at least 50% of the agricultural activity carried out in the reference period referred to in Regulation (EC) No 1782/2003 expressed in livestock units (LU); or in the case of special entitlements established under Article 60, 50% of the agricultural activity carried out before the transition to the single payment scheme expressed in LU; or in the case of Article 65, 50% of the agricultural activity carried out during the application of Articles 67 and 68 of Regulation (EC) No 1782/2003.

However where a farmer has been allocated special entitlements both under Regulation (EC) No 1782/2003 and under this Regulation, he shall maintain at least 50 % of the highest of the levels of activity referred to in the first subparagraph.

The condition referred to in the first subparagraph shall not apply to Malta.

3. In the case of a transfer of the special entitlements in 2009, 2010 and 2011 the transferee may benefit from the derogation provided for in paragraph 2 only if all the special entitlements are transferred. From 2012 the transferee shall not benefit from the derogation except in the case of inheritance or anticipated inheritance.

The first subparagraph shall not apply to Malta.

Article 45

Revision of payment entitlements

1. In duly justified cases, the Member States having introduced the single payment scheme in accordance with Chapters 1 to 4 of Title III of Regulation (EC) No 1782/2003 may decide, acting in compliance with the general principles of Community law to move in or after 2010 towards approximating the value of payment entitlements. Where the decision applies from 2010, it shall be taken by 1 August 2009. In any other case it shall be taken by 1 August 2010.
2. For the purpose of applying paragraph 1, payment entitlements may be made subject to annual progressive modifications in accordance with objective and non-discriminatory criteria. If the modification results in a reduction in the value of the payment entitlements, it shall be made in at least three pre-established annual steps.

In none of the annual steps referred to in the first subparagraph shall the reduction in the value of any payment entitlement be more than 50% of the difference between its initial and final value. Where the reduction in the value is less than 10 % of the initial value Member States may apply fewer than three steps.

3. Member States may decide to apply this Article:
 - (a) at the appropriate geographical level which shall be determined according to objective and non-discriminatory criteria such as their institutional or administrative structure and/or the agricultural potential; or
 - (b) where Article 46(4) is applied, in the region defined in accordance with Article 46(2).

CHAPTER 2

REGIONAL AND PARTIAL IMPLEMENTATION

SECTION 1

REGIONAL IMPLEMENTATION

Article 46

Regional allocation of the ceiling referred to in Article 40

1. Having introduced the single payment scheme in accordance with Chapters 1 to 4 of Title III of Regulation (EC) No 1782/2003 a Member State may decide to apply the single payment scheme in or after 2010 at regional level under the conditions laid down in this Section. Where the decision applies from 2010, it shall be taken by 1 August 2009. In any other case it shall be taken by 1 August 2010.

2. Member States shall define the regions in accordance with objective and non discriminatory criteria such as their institutional or administrative structure and the regional agricultural potential.

Member States may consider their whole territory as one single region.

3. Member States shall subdivide the ceiling referred to in Article 40 between the regions in accordance with objective and non-discriminatory criteria. Member States may decide that these regional ceilings shall be subject to annual progressive modifications in accordance with no more than three pre-established annual steps and objective and non-discriminatory criteria such as the agricultural potential or environmental criteria.

4. Where a Member State applying paragraphs 1, 2 and 3 decides not to apply Article 47, it shall, to the extent necessary to respect the applicable regional ceilings, adjust the value of the payment entitlements in each of its regions. To this end, the payment entitlements shall be subject to linear reductions or increases in their value. The total reduction in the value of the payment entitlements under this paragraph shall be limited to 10% of their initial value.
5. If a Member State decides to apply both Article 45 and this Article, the reductions in the value of the payment entitlements referred to in paragraph 4 of this Article shall be taken into account for the calculation of the limits set in the second subparagraph of Article 45(2).

Article 47

Regionalisation of the single payment scheme

1. In duly justified cases, Member States may decide to divide no more than 50% of the regional ceiling established under Article 46 between all the farmers whose holdings are located in the region concerned, including those who do not hold payment entitlements.
2. Farmers shall receive payment entitlements the unit value of which shall be calculated by dividing the corresponding part of the regional ceiling established under Article 46 by the number of eligible hectares established at regional level.

The value of these payment entitlements shall be increased in cases where prior to the application of this Article a farmer holds payment entitlements. To this end, the regional unit value of each of the farmer's payment entitlements shall be increased by an amount calculated on the basis of the total value of the payment entitlements which the farmer held by a date to be fixed by the Member State. These increases shall be calculated within the limits of the remaining part of the regional ceiling after application of paragraph 1 of this Article.

3. The number of payment entitlements per farmer shall be equal to the number of hectares the farmer declares in the year of application of the single payment scheme at regional level as referred to in Article 46(1), in accordance with Article 34(2), except in the case of *force majeure* or exceptional circumstances.
4. Payment entitlements held by farmers before the division referred to in paragraphs 1 and 2 shall be cancelled and replaced by the new entitlements referred to in paragraph 3.

Article 48

Revision of payment entitlements

1. In duly justified cases, the Member States applying Article 47 may decide, acting in compliance with the general principles of Community law, to move in the year following the application of the single payment scheme at regional level as referred to in Article 46(1) towards approximating the value of the payment entitlements established under this Section. Where the decision shall apply from 2010, it shall be taken by 1 August 2009. In any other case it shall be taken by 1 August 2010.

For the purpose of applying the first subparagraph, the payment entitlements may be made subject to annual progressive modifications in accordance with objective and non-discriminatory criteria. If the modification results in a reduction in the value of the payment entitlements, it shall be made in at least two pre-established annual steps.

2. In duly justified cases, the Member States having introduced the single payment scheme in accordance with Section 1 of Chapter 5 or Chapter 6 of Title III of Regulation (EC) No 1782/2003 may decide, acting in compliance with the general principles of Community law, to move in or after 2010 towards approximating the value of the payment entitlements. Where the decision shall apply from 2010, it shall be taken by 1 August 2009. In any other case it shall be taken by 1 August 2010.

For the purpose of applying the first subparagraph, the payment entitlements shall be subject to annual progressive modifications in accordance with objective and non-discriminatory criteria. If the modification results in a reduction in the value of the payment entitlements, it shall be made in at least three pre-established annual steps.

The first subparagraph shall apply without prejudice to the decisions taken by the Member States pursuant to Article 63(3) of Regulation (EC) No 1782/2003. These Member States may derogate from the minimum number of steps provided for in the first subparagraph and the limits established in paragraph 3 of this Article.

3. In none of the annual steps referred to in paragraphs 1 and 2 shall the reduction in the value of any payment entitlement be more than 50% of the difference between its initial and final value. Where the reduction in the value is less than 10% of the initial value Member States may apply fewer than three steps
4. Member States may decide to apply paragraphs 1, 2 and 3 at the appropriate geographical level which shall be determined in accordance with objective and non-discriminatory criteria such as their institutional or administrative structure and/or the agricultural potential.

Article 49

Grassland

When applying Article 47, Member States may, in accordance with objective and non-discriminatory criteria, determine, within the regional ceiling or part of it, different per unit values of the payment entitlements to be allocated to the farmers referred to in Article 47(1):

- (a) for hectares under grassland on the date set for the area aid applications for 2008 and for any other eligible hectare, or
- (b) for hectares under permanent pasture on the date set for the area aid applications for 2008 and for any other eligible hectare.

Article 50

Conditions for the payment entitlements established under this Section

1. Payment entitlements established in accordance with this Section, with Section 1 of Chapter 5 or with Chapter 6 of Title III of Regulation (EC) No 1782/2003 may only be transferred or used within the same region or between regions where the value of the payment entitlements per hectare are the same.
2. Save as otherwise provided for in this Section, the other provisions of this Title shall apply.

SECTION 2
PARTIAL IMPLEMENTATION

Article 51

The Member States having granted payments in the sheepmeat and goatmeat sectors or the beef and veal payments in accordance with Section 2 of Chapter 5 of Title III of Regulation (EC) No 1782/2003 may decide, by 1 August 2009, to continue to grant these payments under the conditions laid down in this Section. They may also decide to set the part of the component of their national ceilings to be used to grant these payments at a lower level than that decided in accordance with Article 64(2) of Regulation (EC) No 1782/2003. Where a Member State does not take that decision, the payments will be integrated into the single payment scheme from 2010 in accordance with Article 66.

In these cases they shall make, on a yearly basis, an additional payment to farmers.

The additional payment shall be granted for maintaining suckler cows under the conditions provided for in Section 11 of Chapter 1 of Title IV of this Regulation and within the ceiling determined in accordance with Article 51(2) of this Regulation.

2. Any new Member State having applied the single area payment scheme shall take the decisions referred to in Articles 51(1) and 69(1) by 1 August of the year preceding that in respect of which it will apply the single payment scheme for the first time.
3. Except for Bulgaria and Romania, any new Member State having applied the single area payment scheme may provide that, in addition to the eligibility conditions established in Article 34(2), “eligible hectare” means any agricultural area of the holding which has been maintained in good agricultural condition on 30 June 2003, whether or not in production at that date.

Article 56

Application for support

1. Farmers shall apply for support under the single payment scheme by a date to be determined by the new Member States, but not later than 15 May.
2. Except in the case of *force majeure* or exceptional circumstances, payment entitlements shall only be allocated to those farmers who have not applied for the single payment scheme by 15 May of the first year of application of the single payment scheme.

Article 57

2. The new Member States shall use the national reserve for the purpose of allocating, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, payment entitlements for farmers placed in a special situation to be defined by the Commission in accordance with the procedure referred to in Article 141(2).

3. During the first year of application of the single payment scheme, the new Member States may use the national reserve for the purpose of allocating payment entitlements, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions for farmers in specific sectors placed in a special situation as a result of the transition to the single payment scheme.
4. The new Member States may use the national reserve to allocate payment entitlements to farmers who have commenced their agricultural activity after 1 January of the first year of application of the single payment scheme and who have not received any direct payment in that year, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions.
5. New Member States that do not apply Article 68(1)(c) may use the national reserve for the purpose of allocating, in accordance with objective criteria and in such a way as to ensure equal treatment between farmers and to avoid market and competition distortions, payment entitlements for farmers in areas subject to restructuring and/or development programmes relating to one or the other form of public intervention in order to ensure against land being abandoned and to compensate farmers for specific disadvantages in those areas.
6. For the purposes of applying paragraphs 2 to 5, the new Member States may increase the unit value of the payment entitlements held by the farmer concerned, within the limit of EUR 5 000, or may allocate new payment entitlements to the farmer concerned.
7. The new Member States shall make linear reductions in the payment entitlements where their national reserve is not sufficient to cover the cases referred to in paragraphs 2, 3 and 4.

Farmers shall receive payment entitlements, the unit value of which shall be calculated by dividing the ceiling referred to in Article 40 after any reduction provided for in Article 57 by the number of payment entitlements established at national level in accordance with paragraph 2 of this Article.
2. The number of payment entitlements per farmer shall be equal to the number of hectares the farmer declares in accordance with Article 35(1) for the first year of application of the single payment scheme, except in the case of *force majeure* or exceptional circumstances.

3. By way of derogation from paragraph 2, the new Member States may decide that the number of payment entitlements per farmer shall be equal to the average annual number of all hectares which during one or more years of a representative period to be fixed by the Member State but not later than 2008 conferred a right to the single area payment, except in the case of *force majeure* or exceptional circumstances.

However, where a farmer has commenced agricultural activity in the representative period, the average number of hectares shall be based on the payments he was granted in the calendar year or years during which he exercised the agricultural activity.

Article 60

Farmers with no eligible hectares

A farmer acting in the beef and veal sector, dairy sector or sheepmeat and goatmeat sector who is entitled to receive payment entitlements in accordance with Articles 57(3) and 59 for which he does not have eligible hectares in the first year of implementation of the single payment scheme, shall be allocated special entitlements, not exceeding EUR 5000 per entitlement, as referred to in Article 44.

Article 61

New Member States may also, in accordance with objective and non-discriminatory criteria, determine, within the regional ceiling or part of it, different per unit values of the payment entitlements to be allocated to farmers referred to in Article 59(1):

- (a) for hectares of grassland as identified on 30 June 2008 and for any other eligible hectare, or
- (b) for hectares of permanent pasture as identified on 30 June 2008 and for any other eligible hectare.

Article 62

Conditions for payment entitlements

1. Payment entitlements established in accordance with this Chapter may only be transferred within the same region or between regions where the entitlements per hectare are the same.
2. New Member States may, acting in compliance with the general principle of Community law, decide to approximate the value of the payment entitlements established in accordance with this Chapter. This decision shall be taken by 1 August of the year preceding the first year of application of the single payment scheme.

For the purpose of applying the first subparagraph, the payment entitlements shall be made subject to annual progressive modifications in accordance with objective and non-discriminatory criteria and in pre-established annual steps.

3. Except in the case of *force majeure* or exceptional circumstances a farmer may transfer his payment entitlements without land only after he has activated, within the meaning of Article 34, at least 80% of his payment entitlements during at least one calendar year or, after he has surrendered voluntarily all the payment entitlements he has not used in the first year of application of the single payment scheme to the national reserve.

CHAPTER 4

INTEGRATION OF COUPLED SUPPORT INTO THE SINGLE PAYMENT SCHEME

Article 63

Integration of coupled support into the single payment scheme

1. As from 2010 Member States shall integrate the support available under the coupled support schemes referred to in Annex XI into the single payment scheme in accordance with the rules laid down in Articles 64, 65, 66 and 67.
2. By way of derogation from paragraph 1:
 - (a) the Member States having introduced the single payment scheme in accordance with Chapters 1 to 4 of Title III of Regulation (EC) No 1782/2003 may decide to use all or part of the support referred to in paragraph 1 to establish payment entitlements or to increase the value of the payment entitlements on the basis of the type of agricultural activities exercised by farmers during one or more years in the period 2005 to 2008 and in accordance with objective and non-discriminatory criteria such as the agricultural potential or environmental criteria.

- (b) the Member States having introduced the single payment scheme in accordance with Section 1 of Chapter 5 or Chapter 6 of Title III of Regulation (EC) No 1782/2003 or making use of the option provided for in Article 47 of this Regulation, may decide to use all or part of the support referred to in paragraph 1 to increase the value of all payment entitlements by a supplementary amount corresponding to the increase of the regional ceiling divided by the total number of payment entitlements.

Member States may also differentiate the increase in value of the payment entitlements by taking into account the criteria referred to in Article 64(1) or on the basis of the type of agricultural activities exercised by farmers during one or more years in the period 2005 to 2008 and in accordance with objective and non-discriminatory criteria such as the agricultural potential or environmental criteria.

3. Where a Member State makes use of the derogation provided for in paragraph 2(a), it shall take adequate measures to ensure that farmers having benefited from the support referred to in paragraph 1 are not excluded from the single payment scheme. In particular, it shall make sure that the overall support the farmer will receive after the integration of the coupled support schemes referred to paragraph 1 into the single payment scheme does not fall below 75% of the average annual support the farmer received under all the direct payments during the relevant reference periods referred to in Articles 64, 65 and 66.

Article 64

Integration of coupled support excluded from the single payment scheme

1. The amounts referred to in Annex XII that were available for coupled support under the schemes referred to in points 1 and 2 of Annex XI shall be distributed by the Member States amongst the farmers in the sectors concerned in accordance with objective and non discriminatory criteria, taking account, in particular, of support that those farmers received, directly or indirectly, under the relevant support schemes during one or more years in the period 2005 to 2008. In the case of the potato starch schemes referred to in points 1 and 2 of Annex XI, Member States may distribute the amounts available under those schemes taking into account the quantities of potato covered by cultivation contracts between the potato producer and the starch manufacturer within the limit of the quota allocated to that manufacturer, as referred to in Article 84a of Council Regulation (EC) No 1234/2007, in a given year.
2. Member States shall increase the value of the payment entitlements held by the farmers concerned on the basis of the amounts resulting from the application of paragraph 1.

The increase in value per payment entitlement per farmer shall be calculated by dividing the amounts referred to in the first subparagraph by the number of payment entitlements of each farmer concerned.

However, where a farmer in a sector concerned does not hold any payment entitlement, he shall be allocated payment entitlements:

- (a) the number of which shall be equal to the number of hectares he declares in accordance with Article 35(1) in respect of the year of integration of the coupled support scheme into the single payment scheme,
 - (b) the value of which shall be established by dividing the amount referred to in the first subparagraph by the number established in accordance with point (a).
3. However, where the amount per aid scheme is lower than EUR 250 000, the Member State concerned may decide not to distribute the amounts and add them to the national reserve.

Article 65

Integration of coupled support partially excluded from the single payment scheme

The amounts available for coupled support under the schemes referred to in point 3 of Annex XI shall be distributed by the Member States amongst the farmers in the sectors concerned in proportion to the support that those farmers received under the relevant support schemes during the relevant reference periods referred to in Regulation (EC) No 1782/2003.

Member States may, however, choose a more recent representative period in accordance with objective and non-discriminatory criteria and, where a Member State introduced the single payment scheme in accordance with Section 1 of Chapter 5 or Chapter 6 of Title III of Regulation (EC) No 1782/2003 or where it makes use of the option provided in Article 47 of this Regulation, in accordance with Article 64(3).

Member States shall increase the value of the payment entitlements of the farmers concerned or allocate payment entitlements in accordance with Article 64(2).

Where a farmer that received payments under Articles 67 and 68 of Regulation (EC) No 1782/2003 would be entitled to receive payment entitlements in accordance with this Article for which he does not have eligible hectares in the year of integration of the coupled support scheme into the single payment scheme or where his payment entitlement per hectare results in an amount higher than EUR 5000, he shall be allocated special entitlements as referred to in Article 44, not exceeding EUR 5000 per entitlement.

Article 66

Optional integration of coupled support partially excluded from the single payment scheme

Where a Member State does not take the decision referred to in the first subparagraph of Article 51(1); where it decides not to grant the beef and veal payments referred to in Article 53(2) from 2011, in application of the second subparagraph of Article 51(1); or where it decides not to grant the fruit and vegetable payments in application of the third subparagraph of Article 51(1); the amounts that were available for coupled support under the schemes referred to in point 4 of Annex XI shall be integrated into the single payment scheme in accordance with Article 65.

Article 67

Advanced integration of coupled support into the single payment scheme

Member States may decide by 1 August 2009 to integrate the seed aid referred to in Section 5 of Title IV and the schemes referred to in point 1 of Annex XI, with the exception of the specific quality premium for durum wheat, into the single payment scheme in 2010 or 2011. In this case the Commission, in accordance with the procedure referred to in Article 141(2), shall adjust the national ceilings in Annex VIII as referred to in Article 40 by adding the amounts from Annex XII for the aid scheme concerned.

For the rice sector, the support referred to in paragraph 1(b) may only be granted from the calendar year where the Member States integrates the crop specific payment for rice provided for in Section 1 of Chapter 1 of Title IV into the single payment scheme.

7. The Commission, in accordance with the procedure referred to in Article 141(2), shall define the conditions for the Commission approval referred in paragraph 2(a)(ii) and the conditions for granting of the support referred to **in** this Section, in particular with a view to ensuring consistency with other Community measures and policies and to avoid cumulation of support.

8. By 1 August 2011, the Member States that took the decision referred to in Article 69(1) may review it and decide, from 2012, to
- a) modify the amounts for the funding of the support referred to in this Chapter, within the limits of Article 69;
 - b) put an end to the application of specific support under this Chapter;

According to the decision made by each Member State pursuant to points a) and b) the Commission shall fix, in accordance with the procedure referred to in Article 141(2), the corresponding ceiling for that support.

Where a Member State decides to put an end to the application of this Chapter or where it reduces the amounts used for its funding, Article 72(2) shall apply.

Article 69

Financial provisions for specific support

1. Member States may decide by 1 August of 2009, 2010 or 2011 to use from the year following that decision up to 10% of their national ceilings referred to in Article 40, or in the case of Malta the amount of EUR two million for the specific support provided for in Article 68(1) of this Regulation.
2. Member States may apply the 10% retention on a sectoral basis by retaining up to 10% of the component of their national ceiling referred to in Article 41 of Regulation (EC) No 1782/2003 corresponding to any sector referred to in Annex VI of that Regulation. The funds retained may only be used for the application of the support referred to in Article 68(1) of this Regulation in the sectors concerned by the retention.
3. According to the decision made by each Member State pursuant to paragraph 1 on the amount of national ceiling to be used, the Commission shall fix, in accordance with the procedure referred to in Article 141(2), the corresponding ceiling for that support.

For the sole purpose of ensuring the compliance with the national ceilings as provided for in Article 40(2), the amounts used to grant the support referred to in point (c) of Article 68(1) shall be deducted from the ceiling. They shall be counted as allocated payment entitlements.

4. Support provided for under points (i), (ii), (iii) and (iv) of paragraph 1(a) and paragraphs 1(b) and (e) of Article 68 shall be limited to 3,5% of the national ceilings referred to in Article 40 or, in the case of Malta to the amount of two million EUR, referred to in Article 69(1) of this Regulation, to be used in particular for the funding of the measures referred to in Article 68(1)(b) of this Regulation in the dairy sector.

Member States may set sub-limits per measure.

5. By way of derogation from paragraph 4, during calendar years 2010 to 2013, in those Member States which granted support with regard to suckler cows in accordance with Article 69 of Regulation (EC) No 1782/2003 while not having applied the option provided for in Article 68(2)(a)(i) of that Regulation, the limit set out in paragraph 4 shall be set at 6% of their national ceiling. Furthermore, in Member States where more than 60% of their milk production takes place north of the 62nd parallel that limit shall be set at 10%.

However, any support exceeding 3.5% shall be used exclusively for the funding of measures referred to in Article 68(1)(b) of this Regulation in the dairy and beef and veal sectors.

The application of this paragraph shall be subject to a Commission report before 31 December 2013.

6. Member States shall raise the funds needed to cover the support provided:
- (a) in Article 68(1) by using an amount to be calculated by the Commission in accordance with paragraph 7 and fixed in accordance with the procedure referred to in Article 141(2) and/or
 - (b) in Article 68(1)(a), (b), (c) and (d) by making a linear reduction in the value of the payment entitlements allocated to farmers and/or in the direct payments referred to in Articles 52 and 53 and/or from the national reserve,
 - (c) in Article 68(1)(e) by making, if necessary, a linear reduction in one or more of the payments to be made to the beneficiaries of the relevant payments in accordance with this Title and within the limits set out in paragraphs 1 and 4.

For the sole purpose of ensuring compliance with the national ceilings provided for in Article 40(2), where a Member State makes use of the option provided for in point (a), the amount concerned shall not be counted as part of the ceilings fixed under paragraph 3.

7. The amounts referred to in paragraph 6(a) shall be equal to the difference between:
- the national ceilings fixed in Annex VIII or Annex VIIIa of Regulation (EC) No 1782/2003 for the year 2007 after application of Article 10(1) of that Regulation and Article 4(1) of Council Regulation (EC) No 378/2007 and after reduction by 0.5 %; and
 - the budget execution for financial year 2008 of the single payment scheme and the payments referred to in Section 2 and 3 of Chapter 5 of Title III of Regulation (EC) No 1782/2003 with regard to payments in respect of the 2007 reduced ceiling referred to in the first indent.

In no case shall this amount be higher than 4% of the ceiling referred to in the first indent of the first subparagraph.

For new Member States having applied the single payment scheme in 2007, this amount shall be multiplied by 1.75 in 2010, 2 in 2011, 2.25 in 2012 and 2.5 from 2013 onwards.

Upon request from a Member State, the Commission shall revise the established amounts in accordance with the procedure referred to in Article 141(2) and on the basis of detailed rules to be laid down in accordance with the same procedure.

The use by Member States of such amounts shall be without prejudice to the application of Article 8 of this Regulation.

8. The decision referred to in paragraph 1, in Articles 68(8) and 131(1) shall determine the measures to be applied and cover all further implementing arrangements relevant to the application of this Chapter including the description of the eligibility conditions for the measures to be applied, the amount concerned and the financial resources to be raised.

9. The new Member States may decide to apply paragraphs 1, 2, 4, 5 and 6 of this Article and Article 131(1) on the basis of their national ceilings:
 - (a) specified for the year 2016 in the case of Bulgaria and Romania,
 - (b) specified for the year 2013 for the other new Member States.

In that case, Article 132 shall not apply to the measures taken in accordance with this Article.

Article 70

Crop, animal, and plant insurance

1. Member States may grant financial contributions to premiums for crop, animal and plant insurance against economic losses caused by adverse climatic events and animal or plant diseases or pest infestation.

For the purpose of this Article:

- (a) “adverse climatic event” means weather conditions which can be assimilated to a natural disaster, such as frost, hail, ice, rain or drought.
 - (b) “animal diseases” means diseases mentioned in the list of animal diseases established by the World Organisation for Animal Health and/or in the Annex to Council Decision 90/424/EEC.
 - (c) “economic losses” means any additional cost incurred by a farmer as a result of exceptional measures taken by the farmer with the objective of reducing supply on the market concerned or any substantial loss of production.
2. A financial contribution may only be granted for loss caused by an adverse climatic event, by an animal or plant disease or pest infestation which destroys more than 30% of the average annual production of the farmer in the preceding three-year period or a three-year average based on the preceding five-year period, excluding the highest and lowest entry.

3. The financial contribution granted per farmer shall not exceed 65 % of the insurance premium due.

Member States may limit the amount of the premium that is eligible for a financial contribution by applying appropriate ceilings.

4. Coverage by crop and/or animal and/or plant insurance shall only be available where the occurrence of an adverse climatic event or the outbreak of an animal or plant disease or pest infestation has been formally recognised as such by the competent authority of the Member State concerned.

Member States may, where appropriate, establish in advance criteria on the basis of which such formal recognition shall be deemed to be granted.

5. Insurance payments shall compensate for not more than the total cost of replacing the losses referred to in paragraph 1 and shall not require or specify the type or quantity of future production.
6. Any financial contribution shall be paid directly to the farmer concerned.

7. Member States' expenditure on the granting of financial contributions shall be co-financed by the Community from the funds referred to in Article 69(1) at a rate of 75 % of the financial contribution.

The first subparagraph shall not prejudice any powers of Member States to cover their participation in the financing of the financial contributions and the part of the insurance premium to be borne by farmers in full or in part through compulsory collective liability schemes in the sectors concerned. This shall be possible notwithstanding Articles 125*l* and 125*n* of Regulation (EC) No 1234/2007.

8. Member States shall ensure that economic losses for which compensation is granted in accordance with other Community provisions including Article 44 of Regulation (EC) No 1234/2007 and any other health and veterinary or plant health measures shall not be further compensated in accordance with the first subparagraph of paragraph 1.
9. The financial contribution shall not constitute a barrier to the operation of the internal market in insurance services. The financial contribution shall not be limited to insurance provided by a single insurance company or group of companies, or be made subject to the condition that the insurance contract be taken out with a company established in the Member State concerned.

Article 71

Mutual funds for animal and plant diseases and environmental incidents

1. Member States may provide for financial compensation to be paid to farmers for economic losses caused by the outbreak of an animal or plant disease or an environmental incident by way of financial contributions to mutual funds.

2. For the purpose of this Article:
 - (a) "mutual fund" means a scheme accredited by the Member State in accordance with national law for affiliated farmers to insure themselves, whereby compensation payments are made to such farmers affected by economic losses caused by the outbreak of an animal or plant disease or an environmental incident;

 - (b) "economic losses" means any additional cost incurred by a farmer as a result of exceptional measures taken by the farmer with the objective of reducing supply on the market concerned or any substantial loss of production;

 - (c) "an environmental incident" shall mean a specific occurrence of pollution, contamination or degradation in the quality of the environment related to a specific event and of limited geographical scope. It shall not cover general environmental risks not connected with a specific event such as climate change or acid rain.

3. As regards animal diseases compensation may only be granted in respect of diseases mentioned in the list of animal diseases established by the World Organisation for Animal Health and/or in the Annex to Council Decision 90/424/EEC.
4. Member States shall ensure that economic losses for which compensation is granted in accordance with other Community provisions including Article 44 of Regulation (EC) No 1234/2007 and any other health and veterinary or plant health measures shall not be further compensated in accordance with paragraph 1.
5. The mutual funds shall pay the financial compensation directly to affiliated farmers who are affected by economic losses.

The source of the financial compensation paid by the mutual funds shall come from:

- (a) capital stock contributed to the funds by affiliated and non-affiliated farmers, or by other operators in the agricultural chain or,
- (b) loans taken out by the funds on commercial terms, and
- (c) any amounts recovered in accordance with paragraph 11.

Any initial capital stock shall not be contributed by public funds.

6. The financial contributions referred to in paragraph 1 may relate to:
- (a) the administrative costs of setting up the mutual fund, spread over a maximum of three years,
 - (b) the repayment of the capital and interest on commercial loans taken out by the mutual fund for the purpose of paying financial compensation to farmers,
 - (c) the amounts paid by the mutual fund from its capital stock as financial compensation to farmers.

The minimum and maximum duration of the commercial loans eligible for a financial contribution shall be determined by the Commission in accordance with the procedure referred to in Article 141(2).

Where financial compensation is paid by the fund in accordance with point (c) of the first subparagraph, the public financial contribution shall follow the same rhythm as that for a commercial loan of minimum duration.

7. Any financial contribution shall not exceed 65 % of the cost referred to in paragraph 6. Any cost not covered by financial contributions shall be borne by the affiliated farmers.

Member States may limit the costs that are eligible for a financial contribution by applying:

- (a) ceilings per fund,
- (b) appropriate per unit ceilings.

8. Member States' expenditure on the financial contributions shall be co-financed by the Community from the funds referred to in Article 69(1) at a rate of 75 %.

The first subparagraph shall not prejudice any powers of Member States to cover their participation and/or the participation of affiliated farmers in the financing of the financial contributions in full or in part through compulsory collective liability schemes in the sectors concerned. This shall be possible notwithstanding Articles 125*l* and 125*n* of Regulation (EC) No 1234/2007.

9. Member States shall define the rules for the constitution and management of the mutual funds, notably for the granting of compensation payments to farmers in the event of crisis, or for the administration and monitoring of these rules.
10. Member States shall submit to the Commission an annual report on the implementation of this Article. The form, content, timing and deadlines of the report shall be laid down by the Commission in accordance with the procedure referred to in Article 141(2).
11. Where a farmer is granted financial compensation by a mutual fund under this Article any legal right for the recovery of damages for the compensated economic losses which the farmer may have under any provisions of Community or national law against any third party shall be transferred to the mutual fund in accordance with rules to be established by the Member State concerned.

Article 72

Transitional provisions

1. Where a Member State applied Article 69 of Regulation (EC) No 1782/2003, the amounts retained under **that Article** shall be integrated into the single payment scheme in accordance with Article 65 of this Regulation.
2. By way of derogation from the first paragraph, where a Member State that applied Article 69 of Regulation (EC) No 1782/2003 decides to apply the specific support provided for under this Chapter, it may use the amounts retained under Article 69 of Regulation (EC) No 1782/2003 to cover the funding needs referred to in Article 69(6) of this Regulation. Should the funding needs referred to in Article 69(6) be lower than the amounts retained under Article 69 of Regulation (EC) No 1782/2003, the difference shall be integrated into the single payment scheme in accordance with Article 65 of this Regulation.
3. Where a Member State decides to apply the specific support provided for in this Chapter and at the same time applied under Article 69 of Regulation (EC) No 1782/2003 measures not compatible with this Chapter, it may decide, by 1 August 2009, to apply under Article 68 of this Regulation the measures communicated to the Commission under Article 69 of Regulation (EC) No 1782/2003 and its implementing rules during 2010, 2011 and 2012. By way of derogation from Article 69(4), the total support under the measures referred to in Article 68(1)(a), (b) and (e) may be limited to the ceiling fixed for the relevant Member State in the application of Article 69 of Council Regulation (EC) No 1782/2003.

In this case Member States may also decide, by 1 August 2009, to adjust such measures annually towards making them compatible with this Chapter. Where a Member State decides not to make the measures compatible, the amounts concerned shall be integrated into the single payment scheme in accordance with Article 65 of this Regulation.

4. Member States may grant the support provided for under this Chapter from 2009 provided that, by way of derogation from Article 69(6) of this Regulation, they finance the support referred to in Article 68(1) only by using the amounts of the national reserve and that national provisions are in place by the deadline fixed by the Member State for the lodging of the aid application.

Where a Member State subdivides its NGA into sub-base areas and one or more sub-base areas are exceeded, the area per farmer for which the area payment for nuts is claimed shall be reduced proportionately in that year for the farmers in the sub-base areas where the limit has been exceeded. This reduction shall be made when, in the Member State concerned, the areas in the sub-base areas, which have not reached their limits, have been redistributed to the sub-base areas in which the limits have been exceeded.

SECTION 10
PREMIUMS IN THE SHEEPMEAT AND GOATMEAT SECTORS

Article 99

Article 102

1. A supplementary premium shall be paid to farmers in areas where sheep and goat production constitutes a traditional activity or contributes significantly to the rural economy. Member States shall define these areas. In any event, the supplementary premium shall only be granted to a farmer whose holding has at least 50% of its area used for agriculture situated in less-favoured areas defined pursuant to Regulation (EC) No 1257/1999.
2. The supplementary premium shall also be granted to a farmer practising transhumance provided that:
 - (a) at least 90% of the animals for which the premium is applied are grazed for at least 90 consecutive days in an eligible area established in accordance with paragraph 1, and
 - (b) the seat of the holding is situated in a well-defined geographical area for which it has been established by the Member State that transhumance is a traditional practice of sheep and/or goat rearing and that these animal movements are necessary owing to the absence of forage in sufficient quantity during the transhumance period.

3. The amount of the supplementary premium shall be set at EUR 7 per ewe and per she-goat. The supplementary premium shall be granted under the same conditions as those laid down for the grant of the ewe and goat premium.

2. Member States shall take the necessary measures to ensure that the sum of premium rights on their territory does not exceed the national ceilings set out in paragraph 4 and that the national reserve referred to in Article 106 may be maintained.

After the end of the period of application of the single area payment scheme in accordance with Article 122 and where Article 52 is applied, the allocation of the individual ceilings to producers and the setting up of the national reserve referred to in Article 106 shall take place no later than the end of the first year of the application of the single payment scheme.

2. A farmer may also transfer, in whole or in part, his rights to other farmers without transferring his holding.

In the event of a transfer of rights without a transfer of the holding, a part of the premium rights transferred, not exceeding 15%, shall be surrendered, without any compensation to the national reserve of the Member State where the holding is situated, for redistribution free of charge.

Member States may acquire premium rights from farmers who agree, on a voluntary basis, to surrender their rights, in whole or in part. In this case, payments for the acquisition of such rights may be made to such farmers from the national budget.

By way of derogation from paragraph 1 and in duly justified circumstances, Member States may provide that, in the event of a sale or other transfer of the holding, the transfer of rights is carried out via the national reserve.

3. Member States may take the necessary measures to avoid premium rights being transferred outside sensitive areas or regions where sheep production is particularly important for the local economy.
4. Before a date that they shall determine, Member States may authorise temporary transfers of that part of the premium rights which is not intended to be used by the farmer who holds them.

Article 106

National reserve

1. Each Member State shall maintain a national reserve of premium rights.
2. Any premium rights withdrawn pursuant to Article 105(2) or other Community provisions shall be added to the national reserve.

Article 110

Special premium

1. A farmer holding male bovine animals on his holding may qualify, on application, for a special premium. It shall be granted in the form of an annual premium per calendar year and per holding within the limits of the regional ceilings for not more than 90 animals for each of the age brackets referred to in paragraph 2.

For the purposes of this Article, “regional ceiling” means the number of animals entitled to benefit, in a region and per calendar year, from the special premium.

2. The special premium shall be granted no more than:
 - (a) once in the life of each bull from the age of nine months, or
 - (b) twice in the life of each steer:
 - (i) the first time at the age of nine months,
 - (ii) the second time after it has reached the age of 21 months.

3. To qualify for the special premium:
 - (a) any animal covered by an application shall be held by the farmer for fattening for a period to be determined in accordance with the procedure referred to in Article 141(2).
 - (b) each animal shall be covered until slaughter or until export by an animal passport referred to in Article 6 of Regulation (EC) No 1760/2000 containing all relevant information on its premium status or, if not available, by an equivalent administrative document.

4. Where in a given region the total number of bulls from the age of nine months and of steers from the age of nine months to 20 months, for which an application has been made and which satisfy the conditions for granting the special premium, exceeds the regional ceiling referred to in paragraph 8, the total number of eligible animals under paragraph 2(a) and (b) per farmer for the year concerned shall be reduced proportionately.

5. By way of derogation from paragraphs 1 and 4, Member States may:
- (a) on the basis of objective criteria that are part of a rural development policy and only on condition that they take into account environmental as well as employment aspects, change or waive the headage limit of 90 animals per holding and age bracket, and,
 - (b) when exercising this power, decide to apply paragraph 4 in such a way as to reach the level of reductions required to comply with the applicable regional ceiling, without applying such reductions to small farmers who, in respect of the year concerned, did not submit special premium applications for more than a minimum number of animals determined by the Member State concerned.
6. Member States may decide to grant the special premium at the time of slaughter. In this case, the age criterion referred to in paragraph 2(a) for bulls shall be replaced by a minimum carcass weight of 185 kg.

The premium shall be paid or passed back to the farmers.

7. The amount of the special premium shall be set at:
- (a) EUR 210 per eligible bull;

Article 111

Suckler cow premium

1. A farmer keeping suckler cows on his holding may qualify, on application, for a premium for maintaining suckler cows (suckler cow premium). It shall be granted in the form of an annual premium per calendar year and per farmer within the limits of individual ceilings.

2. The suckler cow premium shall be granted to any farmer:
- (a) not supplying milk or milk products from his farm for 12 months from the day on which the application is lodged.

The supply of milk or milk products directly from the holding to the consumer shall not, however, prevent the premium being granted;

- (b) supplying milk or milk products whose total individual quota as referred to in Article 67 of Regulation (EC) No 1234/2007 does not exceed 120 000 kg.

However, Member States may decide on the basis of objective and non-discriminatory criteria, which they determine, to change or waive the quantitative limit, provided that the farmer keeps, for at least six consecutive months from the day on which the application is lodged, a number of suckler cows not less than 60% and of heifers not exceeding 40% of the number for which the premium was requested.

For the purposes of determining the number of eligible animals under points (a) and (b) of the first subparagraph, whether cows belong to a suckler herd or to a dairy herd shall be established on the basis of the beneficiary's individual quota for milk available on the holding on 31 March of the calendar year concerned, expressed in tonnes and the average milk yield.

3. The farmers' entitlement to the premium shall be limited by the application of an individual ceiling as defined in Article 112.
4. The amount of the premium shall be set at EUR 200 per eligible animal.
5. Member States may grant an additional national suckler cow premium, up to a maximum of EUR 50 per animal, provided that no discrimination is caused between stockfarmers in the Member State concerned.

As regards holdings located in a region as defined in Articles 5 and 8 of Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund³³, the first EUR 24,15 per animal of this additional premium shall be financed by the EAGF.

As regards holdings located throughout the territory of a Member State, if in the Member State concerned the cattle population has a high proportion of suckler cows, representing at least 30% of the total number of cows, and if at least 30% of the male bovine animals slaughtered belong to conformation classes S and E, the EAGF shall finance the additional premium in total. Any overshoot of these percentages shall be established on the basis of the average of the two years preceding that for which the premium is granted.

³³ OJ L 210, 31.7.2006, as amended by Regulation (EC) No 1989/2006.

6. For the purposes of this Article, only heifers belonging to a meat breed or born of a cross with a meat breed and belonging to a herd intended for rearing calves for meat production shall be taken into account.

Article 112

Individual ceiling for suckler cow

1. Aid shall be granted to each farmer of suckler cows within the limit of the individual ceilings which have been established pursuant to Article 126(2) of Regulation (EC) No 1782/2003.
2. Member States shall take the necessary measures to ensure that the sum of premium rights on their territory does not exceed the national ceilings set out in paragraph 5 and that the national reserve referred to in Article 114 may be maintained.

After the end of the period of application of the single area payment scheme in accordance with Article 122 and where Article 53(1) is applied, the allocation of the individual ceilings to producers and the setting up of the national reserve referred to in Article 114 shall take place no later than the end of the first year of application of the single payment scheme.

3. Where the adjustment referred to in paragraph 2 requires a reduction of the individual ceilings held by farmers, it shall be carried out without compensatory payment and decided on the basis of objective criteria, including, in particular:
 - (a) the rate at which farmers have used their individual ceilings during the three reference years prior to 2000,
 - (b) the implementation of an investment or extensification programme in the beef and veal sector,
 - (c) particular natural circumstances or the application of penalties, resulting in non-payment or reduced payment of the premium for at least one reference year,
 - (d) additional exceptional circumstances having the effect that the payments made for at least one reference year do not correspond to the actual situation as established during the previous years.

4. Premium rights which have been withdrawn pursuant to the measure provided for in paragraph 2 shall be abolished.

5. The following national ceilings shall apply:

Member State	National ceiling
Belgium	394 253
Bulgaria	16 019

Transfer of suckler cow premium rights

1. When a farmer sells or otherwise transfers his holding, he may transfer all of his suckler cow premium rights to the person who takes over his holding.
2. He may also transfer, in whole or in part, his rights to other farmers without transferring his holding.

3. Member States:
 - (a) shall take the necessary measures to prevent premium rights being transferred outside sensitive areas or regions where beef and veal production is particularly important for the local economy;

By way of derogation from Article 111(3) of this Regulation, Member States where more than 60% of suckler cows and heifers are kept in mountain areas within the meaning of Article 50 of Regulation (EC) No 1698/2005 may decide to manage the granting of the suckler cow premium for heifers separately from that for suckler cows within the limits of a separate national ceiling to be set up by the Member State concerned.

Such a separate national ceiling shall not exceed 40% of the national ceiling of the Member State concerned set out in Article 112(5). That national ceiling shall be reduced by an amount equal to the separate national ceiling. When in a Member State exercising the power provided for in this paragraph, the total number of heifers, for which an application has been made, and which satisfy the conditions for granting the suckler cow premium, exceeds the separate national ceiling, the number of eligible heifers per farmer for the year in question shall be reduced proportionately.

Each ceiling shall be equal to the number of animals in each of these two groups which, in 1995, were slaughtered in the Member State concerned. The number of animals exported to third countries, according to Eurostat data or any other published official statistical information for that year accepted by the Commission, shall be added to each ceiling.

For the new Member States, the national ceilings shall be those contained in the following table.

ANNEX IX TO THE ANNEX

Payment entitlements referred to in Article 33i(b)(iii)

A. Fruit and vegetables, ware potatoes and nurseries

1. For the purposes of this Annex, “fruit and vegetables” shall mean the products listed in Article 1(1)(i) and (j) of Regulation (EC) No 1234/2007, and “ware potatoes” shall mean potatoes of CN code 0701 other than those intended for the manufacture of potato starch for which aid is granted under Article 77.

Farmers shall receive a payment entitlement per hectare which is calculated by dividing the reference amount referred in paragraph 2 by the number of hectares as calculated in accordance with paragraph 3.

2. Member States shall determine the amount to be included in the reference amount of each farmer on the basis of objective and non-discriminatory criteria such as:
 - the amount of market support received, directly or indirectly, by the farmer in respect of fruit and vegetables, ware potatoes and nurseries,
 - the area used to produce fruit and vegetables, ware potatoes and nurseries,
 - the amount of fruit and vegetables produced, ware potatoes and nurseries,

in respect of a representative period which could be different for each product, of one or more marketing years starting from the marketing year ending in 2001 and, in the case of the new Member States, from the marketing year ending in 2004, up to the marketing year ending in 2007.

The application of the criteria in this point may be varied between different fruit and vegetable products, ware potatoes and nurseries, if duly justified on an objective basis. On the same basis, Member States may decide not to determine the amounts to be included in the reference amount and the applicable hectares under this point before the end of a transitional three-year period ending on 31 December 2010.

3. Member States shall calculate the applicable hectares on the basis of objective and non-discriminatory criteria such as the areas referred to in the second indent of the first subparagraph of paragraph 2.
4. A farmer whose production was adversely affected during the representative period referred to in paragraph 2 by a case of *force majeure* or exceptional circumstances occurring before or during that reference period shall be entitled to request that the reference amount referred to in paragraph 2 be calculated on the basis of the calendar year or years in the representative period not affected by the case of *force majeure* or exceptional circumstances.
5. If the whole reference period was affected by the case of *force majeure* or exceptional circumstances, the Member State shall calculate the reference amount on the basis of the closest marketing year prior to the representative period chosen in accordance with paragraph 3. In such case, paragraph 1 shall apply *mutatis mutandis*.

6. A case of *force majeure* or exceptional circumstances, with relevant evidence to the satisfaction of the competent authority, shall be notified by the farmer concerned in writing to the authority within a deadline to be fixed by each Member State.

B. Wine (grubbing up)

Farmers who participate in the grubbing up scheme laid down in Chapter 3 of Title V of Regulation (EC) No 479/2008 shall be allocated, in the year following the grubbing up, payment entitlements equal to the number of hectares for which they have received a grubbing up premium.

The unit value of these payment entitlements shall be equal to the regional average of the value of the payment entitlements of the corresponding region. However, the unit value shall in any case not exceed EUR 350/ha.

By way of derogation from the first subparagraph where the hectares for which a farmer has received the grubbing up premium had previously been taken into account for the allocation of payment entitlements the value of the payment entitlements held by the farmer concerned shall be increased by the amount resulting from the multiplication of the number of hectares grubbed up referred to in the first subparagraph with the unit value referred to in the second subparagraph.

C. Wine (transfer from support programmes)

Where Member States choose to provide support in accordance with Article 9 of Regulation (EC) No 479/2008, they shall establish a reference amount for each farmer as well as the applicable hectares:

- on the basis of objective and non-discriminatory criteria;
- in respect of a representative reference period of one or more wine years starting from the wine year 2005/2006. However, the reference criteria used to establish the reference amount and applicable hectares shall not be based on a reference period including wine years after the wine year 2007/2008 where the transfer in support programmes concerns compensation to farmers who have previously received support for potable alcohol distillation or have been the economic beneficiaries of the support for the use of concentrated grape must to enrich wine under Regulation (EC) No 479/2008;
- which shall not exceed the overall available amount for this measure referred to in Article 6(e) of Regulation (EC) No 479/2008.

Farmers shall receive a payment entitlement per hectare which is calculated by dividing the reference amount referred to by the number of applicable hectares.

⁽¹⁾ Grain measurements are taken on wholly milled rice by the following method:

- (i) take a sample representative of the batch;
- (ii) sieve the sample so as to retain only whole grains, including immature grains;
- (iii) carry out two measurements of 100 grains each and work out the average;
- (iv) express the results in millimetres, rounded off to one decimal place.

⁽²⁾ The tetrahydrocannabinol (THC) content of a variety is determined by analysing a sample maintained at constant weight. The weight of THC in relation to the weight of the sample must - for the purposes of granting the aid - not be greater than 0,2 %. The sample is to consist of the upper third of a representative number of plants selected at random at the end of their flowering period and with stalks and seeds removed.
